Abstracts

The report on the SD-WAN market provides an in-depth analysis of the market size, forecasts and opportunities of SD-WAN hardware, software and services targeted at small and medium businesses, enterprises and service providers. The study includes market analysis of SD-WAN hardware that includes appliances and routers, SD-WAN software that includes orchestrators, gateways, cloud routers and firewalls, dashboards, management systems among others, and SD-WAN services that includes Service Provider Managed SD-WAN services and Cloud Managed SD-WAN services. Further to this, the report also provides the market data for systems across five regions – North America, Europe, Asia-Pacific, Central America and Latin America (CALA), and Middle-East and Africa (MEA).

Arcluster's SD-WAN market report also includes insights into key market requirements gathered from SMBs, enterprises, network engineers, IT managers, CIOs, IT decision makers, users, buyers, and service providers. The study also covers key demand side ratings such as ratings across regions for SD-WAN features, and deployment timelines across SMBs, enterprises and service providers.

Questions answered in the SD-WAN Market Report.

1. What is the market size and forecast of SD-WAN across the globe?
2. What is the market size and forecast of Managed SD-WAN Services?
3. What is the demand side feedback in terms of adoption SD-WAN solutions?
