Abstracts

The market report on Bare Metal Cloud provides insights into key market requirements gathered from enterprises and businesses, their preferences, priorities and perception of bare metal infrastructure in the larger goals towards big data and private cloud adoption. The study also covers key adoption factors such as user preferences on private cloud and virtualization, security, hardware expectations, and the emerging world of cloud services from a bare metal setup.

The Bare Metal Cloud market report provides an in-depth analysis on enterprise pain points and geographical trends. The study also covers additional market forecast data on private cloud segments and sub-segments. The analysis in the report will help both cloud market participants and enterprise IT companies to develop strategies, marketing goals and business decisions based on the actionable market intelligence from this report.

This report has been built on a rigorous period of information gathering from both secondary and primary sources through several interviews with industry participants, hardware manufacturers, enterprises, users, senior level IT executives, system integrators, value added resellers (VARs), service providers, channel players and regulators. Data gathered from these interviews and surveys was curated, analyzed, and engineered to understand buying, spending, demand and supply patterns and to estimate market sizes and forecasts. The resultant data was checked for applicability across the enterprise IT and cloud value chains through market-data associations and

then further validated through multiple check points to check consistencies, error samples, variances.

The 2016 syndicated study report on Bare Metal Cloud is part of an ongoing series of market reports that focus on micro emerging trends in the cloud and enterprise IT markets across multiple regions and countries.

The Bare Metal Cloud market covers three major segments

Hardware

Software

Services

The hardware market is further segmented by:

Bare Metal Servers

By Deployment

By Regions

Bare Metal Storage

By Deployment

By Regions

Bare Metal Networking

By Deployment

By Regions

Metal Cloud Services market is further segmented by

Hosted Bare Metal Cloud

Dedicated Hosted Bare Metal Cloud

By Regions

On-Demand Bare Metal Cloud

By Regions

On-Premise Bare Metal Cloud

By Regions.

The Bare Metal Cloud market is also categorized by 10 verticals. The market size and forecast for Bare Metal Cloud in each of these verticals is provided by Segments (Hardware, Software, Services) as well as by 5 Regions.

Aerospace and Defense

Automotive and Transportation

Banking, Financial Services and Insurance

Chemicals, Materials, Food & Beverage, Agriculture

Construction and Manufacturing

Energy, Power and Utilities

Healthcare and Life Sciences

Public Sector and Government

Telecom, Technology and Media

Others (Travel, Hospitality, Tourism etc.)

The Bare Metal Cloud market is also categorized by five regions. The market size and forecast for Bare Metal Cloud in each of these regions is provided by three Segments (Hardware, Software, Services).

North America

Europe

Asia Pacific

Central America/Latin America

Middle East and Africa

6 BARE METAL CLOUD: MARKET PARTICIPANTS – SUPPLY AND DEMAND

6.1 Supply Side Analysis Product and Company Profiles

- 6.1.1. a. SoftLayer Technologies (IBM)
- 6.1.1. b. Internap
- 6.1.1. c. Rackspace
- 6.1.1. d. CenturyLink
- 6.1.1. e. Packet
- 6.1.1. f. OVH
- 6.1.1. g. Servers.com
- 6.1.1. h. Peer1 (Cogeco)

6.2 Demand Side Analysis VM Limitations - Bare Metal User Ratings by Regions

- Bare Metal Environments User Ratings by Regions
- Bare Metal Use Cases User Ratings by Regions
- Bare Metal Applications User Ratings by Regions
- Bare Metal Features User Ratings by Regions
- Bare Metal Benefits User Ratings by Regions
