In-depth Analysis and Data-driven Insights on the Impact of COVID-19 Included in this Global Bluetooth Speaker Market Report

The global Bluetooth speaker market is expected to grow at a CAGR of over 10% during the period 2019–2025.

Bluetooth speakers are gaining significant traction in the voice frequency industry. With advances in headphone technology, speakers are entering the intelligent speaker era. Therefore, the implementation of the new generation technology with improved connectivity is expected to bolster the demand for Bluetooth speakers. The demand has grown in the US and China, where the high internet penetration and the convenience to purchase connected devices via several online distribution channels have enabled the Bluetooth speaker market growth.

One of the major factors responsible for market growth is product innovations. This trend is playing a vital role in gaining attention among consumers. With the incorporation of innovative, advanced headphones technology, several products are experiencing enhancements in designing, specification, and features, thereby increasing the demand among consumers. Fugoo offers Bluetooth speakers, which comprise nearly eight symmetrically placed drivers. Similarly, the inclusion of long battery life, 360-degree surround sound, customizable led lights, application sync features, and smart assistant makes its product attractive to a wide audience.

The following factors are likely to contribute to the growth of the Bluetooth speaker market during the forecast period:

Advancements in Technology and Innovative Solutions

Increasing Penetration of Internet

Increased Investment in IoT

Growth in Online Music Streaming

The study considers the present scenario of the Bluetooth speaker market and its market dynamics for the period 2019-2025. It covers a detailed overview of several market growth enablers, restraints, and trends. The study offers both the demand and supply aspects of the market. It profiles and examines leading companies and other prominent ones operating in the market.

BLUETOOTH SPEAKER MARKET: SEGMENTATION

This research report includes a detailed segmentation by pricing, portability, devices, end-users, and geography. Low-end models are proficiently used by end-users for both residential and commercial purposes. They are the preferred choice as they are convenient and offer hassle-free installation. These devices are portable and offer excellent sound quality, thereby contributing to revenue growth. Besides, the cost-effectiveness offered by these models is expected to increase their application in the residential sector. Mid-end models, which are priced between \$50 and \$200, can be used both in commercial and residential segments. The segment is expected to experience steady growth in APAC as end-users in the region are highly-priced sensitive and restrain from purchasing high-priced premium items. Thus, APAC could become a potentially large market for mid-range Bluetooth speakers during the forecast period. While the annual saving ratio in APAC countries is higher than the US and European countries, the APAC is likely to emerge one of the largest markets for mid-range devices during the forecast period.

A majority of Bluetooth speakers are portable, as they offer convenience and movability. The fixed segment is expected to lose its market share to the portable segment during the forecast period. The portable Bluetooth speaker market is expected to grow at a significant CAGR during the forecast period as they are compact and lightweight, thereby increasing prominence in the Bluetooth speaker market. Also, these devices can easily configure with tablets or smartphones, thereby increasing adoption in the residential segment. Fixed Bluetooth speakers do not include batteries and are not easy

to carry. They have a fixed installation in the house. Hence, these models limit the mobility for the equipment, thereby posing a restraint for their market growth. With increasing innovations, professionals are increasingly focusing on the introduction of devices, which are high on compactness and low on inconvenience. The APAC region is expected to contribute significant share toward the fixed segment on account of the increasing popularity of regional music streaming platforms. These platforms are focusing on developing sustainable revenue models in the next few years. The consumers in Asia are increasingly shifting their preferences from downloading to streaming.

The traditional market is attaining maturity in developed economies. End-users are looking for product innovations. Further, these devices are priced at a lower end, and thus, generate revenue through mass sales. Bluetooth speakers are profoundly used for sharing music files and play music around the house. The waterproof Bluetooth speaker market, on the other hand, is gaining traction in the US and Western European countries. They are priced in the moderate range, with the market witnessing a shift toward innovative speakers in developed countries. Moreover, their increasing application in outdoor spaces can contribute in the growth of the segment. North America is expected to witness the shipment of over 14 million units by 2025 due to the high spending power of the millennial, the increased adoption of smartphones, and rapid urbanization are driving the segment growth.

Bluetooth speakers find their application as home speakers in households. These devices are used for music streaming via smartphones or PCs. These devices are considerably simple to operate. With their increasing popularity, a high percentage of consumers recognize the benefits of Bluetooth devices, which include portability, power-saving options, easy installation, high-quality sound, and seamless wireless connectivity. These features are increasingly driving the application in the residential sector. Key vendors in the Bluetooth speaker market emphasize technological enhancements for product differentiation.

The increasing adoption of Bluetooth speakers in small offices, home offices, educational institutions, and smart offices is driving the segment growth. Commercial Bluetooth devices are expensive, but they are powerful and large. They are standalone devices, which offer better sound quality in comparison to built-in counterparts. These devices have been witnessing profound adoption in the past few years in the audio technology segment. These speakers are available in several shapes and sizes, thereby catering to changing consumer demands.

INSIGHTS BY GEOGRAPHY

North America is one of the largest markets in the music industry. However, the shifting trend toward online communications and digital media is expected to open avenues for music industry professionals and global artists. Streaming services include a wide variety of formats, premium paid subscription services, along with streaming radio services. Nearly 50% of North Americans are using unpaid and paid streaming services.

Hence, increasing paid subscriptions are expected to contribute favorably to the Bluetooth speaker market. With the rise in music streaming services, Bluetooth speakers are anticipated to witness the surging rise in demand. The European region is expected to witness an increase in per capita disposable income, thereby driving the overall demand for several electronic appliances among professionals and residential users. Digitalization is expected to have to affect Europe positively. The concept of video streaming in social media is gaining prominence in the region. With increasing internet penetration, the streaming music industry is anticipated to witness an increase.

The growing penetration of smartphones in APAC has increased the addressable market for Bluetooth speakers. The penetration of smartphones is rapidly increasing due to urbanization in the region. When smartphones were launched, their price premium made them unaffordable for the middle-class population. However, with the availability of budgeted smartphones, high disposable income, and increased buying power of the middle-class population, especially in developing countries, the sale of Bluetooth speakers is expected to increase. Several innovative regionally centered music streaming platforms are significantly experiencing a rise in demand in the APAC region.

INSIGHTS BY VENDORS

The global Bluetooth speaker market is moderately concentrated with Bose, HARMAN, Sony, and Beats, capturing more than 40% of the market share. The rapidly changing

technological environment could adversely affect vendors as customers expect continual innovations and upgrades.

On the one hand, some traditional manufacturers have started to offer Bluetooth speakers with high functionalities and designs. All these companies have a global presence, at least in three major geographical regions of North America, APAC, and Europe. However, there are local vendors providing products with similar specifications at low prices. This will intensify the price wars among vendors during the forecast period. The Bluetooth speaker market has the threat of infiltration with low-quality products. Major vendors continually compete among themselves for the leading position in the market, with occasional spurts of competition coming from other local vendors.

LIST OF EXHIBITS

- Exhibit 1 Segmentation of Global Bluetooth Speaker Market
- Exhibit 2 Market Size Calculation Approach 2019
- Exhibit 3 Market Size Calculation: Top-down Approach 2019
- Exhibit 4 Bluetooth Technology Segments
- Exhibit 5 Impact of Advancements in Technology & Innovative Solutions
- Exhibit 6 Advancements in Bluetooth Speakers
- Exhibit 7 Latest Technologies in Bluetooth Speakers
- Exhibit 8 Impact of Increased Investment in IoT by Vendors
- Exhibit 9 Economic Impact of IoT in Various Settings by 2025 (impact in \$ trillion)
- Exhibit 10 Impact of Upsurge in E-Commerce Platforms
- Exhibit 11 Global E-commerce Sales 2016?2019 (\$ trillion)
- Exhibit 12 Future Trends: E-commerce
- Exhibit 13 Impact of Growing Online Music Streaming
- Exhibit 14 Global Recorded Music Industry: Growth in Streaming Revenues 1999?2018 (\$ billion)
- Exhibit 15 Impact of Advancements in Battery Technology
- Exhibit 16 Impact of Increasing Internet Penetration
- Exhibit 17 Total Number of Internet Users Globally
- Exhibit 18 Impact of Volatility in Raw Material Prices
- Exhibit 19 Factors Impacting Raw Material Pricing
- Exhibit 20 Impact of Growing Threat from Smart Speakers
- Exhibit 21 Impact of Commoditization & Low Cost of Chinese Bluetooth Speakers
- Exhibit 22 Consumer Buying Process Model
- Exhibit 23 Factors Impacting the Consumer Purchase
- Exhibit 24 User Streaming Penetration in Music Streaming Market: 2018
- Exhibit 25 Global Bluetooth Speaker Market 2019–2025 (\$ billion)
- Exhibit 26 Global Bluetooth Speaker Market 2019–2025 (million units)
- Exhibit 27 Global Shipments of Bluetooth-enabled Audio Devices 2013?2022 (million units)
- Exhibit 28 Global Mobile Phone Shipments by Type 2010–2020 (billion units)
- Exhibit 29 ASP of Bluetooth Speakers 2014?2025 (\$)
- Exhibit 30 Five Forces Analysis 2019
- Exhibit 31 Value Chain Model for Bluetooth Speakers
- Exhibit 32 Various Distribution Channels of Bluetooth speaker
- Exhibit 33 Distribution Channel Flow of Bluetooth Speaker

- Exhibit 34 Global Bluetooth Speaker Market by Distribution Channel 2019
- Exhibit 35 Incremental Growth by Portability 2019 & 2025 (\$ billion)
- Exhibit 36 Incremental Growth by Portability 2019 & 2025 (million units)
- Exhibit 37 Global Bluetooth Speaker Market by Portability
- Exhibit 38 Global Bluetooth Speaker Market Share by Portability 2019 (Revenue & Unit Shipments)
- Exhibit 39 Global Bluetooth Speaker Market by Portability 2019?2025 (\$ billion)
- Exhibit 40 Global Fixed Bluetooth Speaker Market 2019?2025 (\$ billion)
- Exhibit 41 Global Fixed Bluetooth Speaker Market 2019?2025 (million units)
- Exhibit 42 Global Portable Bluetooth Speaker Market 2019?2025 (\$ billion)
- Exhibit 43 Global Portable Bluetooth Speaker Market 2019?2025 (million units)
- Exhibit 44 Incremental Growth by Device 2019 & 2025 (\$ billion)
- Exhibit 45 Incremental Growth by Device 2019 & 2025 (million units)
- Exhibit 46 Bluetooth Speaker Market by Device
- Exhibit 47 Bluetooth Speaker Market Share by Device 2019 (Revenue & Unit Shipments)
- Exhibit 48 Global Bluetooth Speaker Market by Device 2019?2025 (\$ billion)
- Exhibit 49 Global Traditional Bluetooth Speaker Market 2019?2025 (\$ billion)
- Exhibit 50 Global Traditional Bluetooth Speaker Market 2019?2025 (million units)
- Exhibit 51 Global Waterproof Bluetooth Speaker Market 2019?2025 (\$ billion)
- Exhibit 52 Global Waterproof Bluetooth Speaker Market 2019?2025 (million units)
