Abstracts

The data center market in Latin America is expected to grow at a CAGR of over 6% during the period 2019–2025.

The following factors are expected to contribute to the growth of the data center market in Latin America during the forecast period:

Development of Green Data Centers

Increased Tax Incentives & Low Cost of Data Center Construction

Increasing use of Free Cooling to Remote Data Center Heat

Adoption of Flash Storage Solutions

Shift to Edge Data Center Deployments

The digitalization of the business environment is driving the data center market in Latin America. Around one-third of the population adopted smart devices in 2019, which has led to the growth of internet-based service consumption, i.e. adoption of cloud-based services in the region. Moreover, the growing adoption of data center services in sectors such as media and entertainment, BFSI, government agencies is boosting the demand for colocation facilities. Enterprises, colocation service providers, and telecommunication service providers are also significantly contributing to data center investments in Latin America. Hence, the increased investment from cloud-based service providers is likely to influence the Latin America data center market.

In Latin America, the most start-ups across FinTech, AgTech, and eCommerce business verticals are involved in using big data analytics and IoT applications. Brazil dominates the big data market, followed by Mexico and Colombia. The high adoption of cloud computing, big data, and IoT services, along with the growth in social networking and demand for online video services, has prompted telecommunication providers, enterprises, and government agencies in the region to strengthen their internet backbone. In 2019, Google landed its private submarine cable, Curie, in Valparaíso, Chile. The cable is directly connected to the Equinix LA4 data center in Los Angeles, California. About 10 submarine cable projects expected to be operational by 2021, will bring in high data center investments year-over-year.

The report considers the present scenario of the data center market in Latin America during the forecast period and its market dynamics for the forecast period 2020-2025. It covers a detailed overview of several market growth enablers, restraints, and trends. The report profiles and examines leading companies and several other prominent companies operating in the market.

Latin America Data Center Market: Segmentation

This research report includes a detailed segmentation by IT infrastructure, electrical infrastructure, mechanical infrastructure, general construction, tier standards, and geography. IT spending in Latin America is growing significantly YOY. The growth is majorly driven by enterprises shifting from on-premise IT infrastructure to colocation. Enterprises are more concerned about the availability of support services such as reliable power, cooling system efficiency, high-speed connectivity, and security. These concerns are driving enterprises to adopt colocation and cloud-based services. The server market is expected to grow during the forecast period due to the increasing investment from cloud providers such as AWS, Google.

All-flash-arrays are expected to be replace traditional storage drives as a primary source of storage in the Latin America region data center during the forecast period. The increase in usage of internet, smartphone adoption, IoT, and big data analytics has raised the demand for IT infrastructure in the region. The number of application workloads instances in the cloud, as well as on-premise, will grow by 2.5X by 2025. The incorporation of 5G and improvement towards fixed broadband connectivity will fuel the demand for HPC infrastructure by 2025. While the use of HDD-based arrays is present in several data centers, the demand is declining YOY and is getting replaced by fast, reliable, and non-volatile storage solutions. The adoption of NVMe SSDs will gain

traction in leading markets such as Brazil, Chile, and Colombia.

The Latin America data center market has a strong potential for UPS systems due to the increasing greenfield facility developments, especially greater than 10 MW. Several facilities are being developed based on Tier III standards for design and operations with a minimum of N+1 redundancy on UPS systems. The emergence of lithium-ion battery systems is expected to influence market growth.

The adoption of generators of capacity over 2 MW is growing in Latin America. The service providers in Latin American countries continue to invest more in N+N redundant generators rather than N+1 or 2N for power distribution and UPS systems. The market for transfer switches and switchgear is expected to grow due to the increased data center construction. However, the use of switches will vary significantly based on capacity supported, cost, mean time between failures (MTF), switching time, and design. With the increased construction of data centers typically of more than 5 MW capacity, the market for medium-voltage switchgears is expected to grow significantly.

Several facilities in Brazil are commonly utilizing water-based cooling systems. Some parts of Brazil also offer the climatic benefit of adopting free cooling and air-based cooling techniques. The large data center development in Brazil during the forecast period is expected to adopt systems that support free cooling.

In Chile, most facilities use chilled water systems with CRAH units, free cooling units with CRAC units, or free cooling chillers. The increasing adoption of free cooling in Chile is likely to reduce cooling energy consumption by up to 30% during the forecast period. Also, the growing construction of modular and colocation facilities in Chile is projected to fuel the demand for mechanical infrastructure in the region.

Many facilities in Colombia are equipped with a minimum cooling redundancy of N+1 configuration. The growth of rack power density will prompt providers to adopt innovative cooling solutions such as evaporative coolers to facilitate free cooling solutions. The use of water-based cooling solutions will dominate other Latin American markets, including Peru, Argentina, Uruguay, Mexico, and the Caribbean.

Most data center development in Brazil during the forecast period is expected to be greenfield. The market has a strong potential for growth for modular projects. In Chile, a majority of the construction contractors are generally involved in the development of greenfield and modular facilities. With the market operating data centers of IBM and Google, the country is likely to witness the opening of a few additional Tier IV facilities

with high operational sustainability. The data center construction market in Colombia involves the adoption of greenfield developments and modular facilities. Greenfield developments are carried out by colocation and telecommunication service providers.

Tier I data centers exist in the North American region. According to the Uptime Institute, there are around two facilities in Latin America that are Tier II certified based on designing and construction. In these facilities, redundancy is recognized between UPS and PDU systems. Other infrastructures are identified to be working through the single delivery path with no redundancy in most cases; this includes piping of data center cooling systems. However, with the increased awareness of redundant infrastructure, the number of Tier I facilities in Latin America have decreased considerably in the last five years.

Tier IV data centers facilities are in Brazil, Colombia, Chile, Mexico, Uruguay, and Ecuador in Latin America. Tier IV facilities are equipped with at least 2N+1 redundancy in every infrastructure that makes the facility fault-tolerant, with some facilities having 2N+2 redundancy in few critical infrastructures such as UPS systems and PDUs. The contribution of hyperscale developers such as Google and AWS is aimed at making a facility that is fully fault-tolerant to provide customers with satisfaction while connecting with cloud-based services in a region.

Insights by Geography

Brazil is the leading country with the highest number of facilities. With the increasing internet penetration, the use of cloud-based services by businesses is growing. In Brazil, there were about 13 new facilities opened or under-construction projects and are likely to be operational by 2019. Cloud service providers such as Alibaba is also planning to launch its cloud computing service in Brazil. Alibaba has identified a local partner known as UOL Diveo that will resell its cloud services in Brazil. In Brazil, Sao Paulo is the state with the majority of investment from Ascenty, Equinix, UOL DIVEO. Rio de Janeiro is also preferred by colocation service providers such as Ascenty and Centurylink.

Chile has been witnessing growth in data centers development in recent years due to the demand for cloud-based services, the internet of things (IoT), and big data analytics the increasing submarine cable deployments in Chile, the data center construction market is growing rapidly. For instance, Huawei is expected to build a 2,800-kilometer subsea cable project in Chile in partnership with Communications and Rural Telephony (CTR). Colocation and telecommunication service providers are the major contributor to the Chile market. Ascenty is one of the leading operators in Latin America and is investing in its first facility in Chile. Ascenty is expected to expand its presence in the country with Google boosting the market growth through additional investments.

Key Vendor Analysis

The data center construction market in Latin America is continuing to grow in terms of greenfield, brownfield, and modular data center construction. The market is still witnessing increased growth in the number of facilities across all regions, with a high adoption of efficient and modular data center infrastructure solutions. The market has a strong presence of vendors across all three categories, such as electrical infrastructure, mechanical infrastructure, and general construction.

Prominent (IT) Infrastructure Providers

Hewlett Packard Enterprise (HPE)

Cisco

Dell Technologies

Huawei

IBM

Prominent Support Infrastructure Providers

ABB

Eaton

Rittal

KINOLT (Euro-Diesel)

Schneider Electric

STULZ

Vertiv

Prominent Construction Contractors

AECOM

Constructora Sudamericana S.A.

Flexenclosure

Aceco TI

ZFB Group

Prominent Data Center Investors

Bridge Data Centres

Ascenty

Equinix

Google

ODATA

Tigo (Millicom)

Other Prominent IT Infrastructure Providers – Arista, Broadcom, Juniper, Lenovo, NetApp, Oracle, Pure Storage

Other Prominent Construction Contractors - Fluor Corporation, Holder Construction, Jacobs Engineering Group, Mortenson Construction

Other Prominent Infrastructure Providers - Active Power (Piller Power Systems), Alfa Laval, Assa Abloy, Axis Communications, Bosch Security Systems (Robert Bosch), Caterpillar, Cisco, Cummins, Daikin Applied (Daikin Industries), Delta Group, Generac Power System, Honeywell International, Legrand, Mitsubishi, Munters, Panduit, Siemens

Other Prominent Data Center Investors – EdgeConnex, GTD Group, Telefonica

Key Market Insights Include

The report provides the following insights into the data center market in Latin America during the forecast period 2020–2025.

It offers comprehensive insights into current industry trends, trend forecasts, and growth drivers about the data center market in Latin America.

The report provides the latest analysis of share, growth drivers, challenges, and investment opportunities.

It offers a complete overview of segments and the regional outlook of the data center market in Latin America.

The study offers a detailed overview of the vendor landscape, competitive analysis, and key strategies to gain competitive advantage.

4 SCOPE & COVERAGE

4.1 Market Definition

4.2 Base Year

4.3 Scope of The Study

4.4 Market Segments

4.4.1 Market Segmentation by Infrastructure

4.4.2 Market Segmentation by IT Infrastructure

4.4.3 Market Segmentation by Electrical Infrastructure

4.4.4 Market Segmentation by Mechanical Infrastructure

4.4.5 Market Segmentation by Cooling Systems

4.4.6 Market Segmentation by General Construction

4.4.7 Market Segmentation by Tier Standards

4.4.8 Market Segmentation by Geography

5 REPORT ASSUMPTIONS & CAVEATS

5.1 Key Caveats

5.2 Currency Conversion

5.3 Market Derivation

6 MARKET AT A GLANCE

7 INTRODUCTION

7.1 Data Center Site Selection Criteria

7.1.1 Key

7.2 Internet Penetration

7.2.1 Impact of Internet Penetration in Latin America

8 MARKET GROWTH ENABLERS

- 8.1 Demand for Cloud, Colocation, & Managed Service Providers
- 8.2 Increased use of big data & IoT technologies
- 8.3 Rising Interest for Modular/Containerized/POD Data Center Deployment
- 8.4 Development of Green Data Centers
- 8.5 Growth of Network Connectivity & High-speed Bandwidth
- 8.6 Increased Tax Incentives & Low Cost of Data Center Construction
- 8.7 Growing Rack Power Density in Data Centers

9 MARKET RESTRAINTS

- 9.1 Rising cybersecurity challenges
- 9.2 Lack of Skilled Workforce
- 9.3 Site Selection Constraints For Data Center Development
- 9.4 High Cost of Data Center Infrastructure

10 MARKET OPPORTUNITIES & TRENDS

- 10.1 Adoption of Flash Storage Solutions
- 10.2 Increased Adoption of DCIM Solutions
- 10.3 Increasing use of Free Cooling IN Data Centers
- 10.4 Shift to Edge Data Center Deployments

11 MARKET LANDSCAPE

- 11.1 Market Overview
- 11.2 Market Size & Forecast
- 11.3 Five Forces Analysis
 - 11.3.1 Threat of New Entrants
 - 11.3.2 Bargaining Power of Suppliers
 - 11.3.3 Bargaining Power of Buyers
 - 11.3.4 Threat of Substitutes
 - 11.3.5 Competitive Rivalry

12 INFRASTRUCTURE SEGMENTATION

- 12.1 Market Snapshot & Growth Engine
- 12.2 Market Overview
- 12.3 IT Infrastructure

- 12.3.1 Market Overview
- 12.3.2 Market Size & Forecast
- 12.4 Electrical Infrastructure
 - 12.4.1 Market Overview
 - 12.4.2 Market Size & Forecast
- 12.5 Mechanical Infrastructure
 - 12.5.1 Market Overview
 - 12.5.2 Market Size & Forecast
- 12.6 General Construction
 - 12.6.1 Market Overview
 - 12.6.2 Market Size & Forecast

13 IT INFRASTRUCTURE

- 13.1 Market Snapshot & Growth Engine
- 13.3 Servers
 - 13.3.1 Market Overview
 - 13.3.2 Market Size & Forecast
- 13.4 Storage
 - 13.4.1 Market Overview
 - 13.4.2 Market Size & Forecast
- 13.5 Network
 - 13.5.1 Market Overview
 - 13.5.2 Market Size & Forecast

14 ELECTRICAL INFRASTRUCTURE

- 14.1 Market Snapshot & Growth Engine
- 14.2 UPS Systems
 - 14.2.1 Market Overview
 - 14.2.2 Market Size & Forecast
- 14.3 Generators
 - 14.3.1 Market Overview
 - 14.3.2 Market Size & Forecast
- 14.4 Transfer Switches & Switchgears
 - 14.4.1 Market Overview
 - 14.4.2 Market Size & Forecast
- 14.5 Power Distribution Units (PDU's)
 - 14.5.1 Market Overview

- 14.5.2 Market Size & Forecast
- 14.6 Other Electrical Infrastructure
 - 14.6.1 Market Overview
 - 14.6.2 Market Size & Forecast

15 MECHANICAL INFRASTRUCTURE

- 15.1 Market Snapshot & Growth Engine
- 15.2 Cooling Systems
 - 15.2.1 Market Overview
 - 15.2.2 Market Size & Forecast
- 15.3 Racks
 - 15.3.1 Market Overview
 - 15.3.2 Market Size & Forecast
- 15.4 Other Mechanical Infrastructure
 - 15.4.1 Market Overview
 - 15.4.2 Market Size & Forecast

16 COOLING SYSTEMS

- 16.1 Market Snapshot & Growth Engine
- 16.2 CRAC & CRAH Units
 - 16.2.1 Market Overview
 - 16.2.2 Market Size & Forecast
- 16.3 Chiller Units
 - 16.3.1 Market Overview
 - 16.3.2 Market Size & Forecast
- 16.4 Economizers & Evaporative Coolers
 - 16.4.1 Market Overview
 - 16.4.2 Market Size & Forecast
- 16.5 Cooling Towers, Dry Coolers & Condensers
 - 16.5.1 Market Overview
 - 16.5.2 Market Size & Forecast
- 16.6 Other Cooling Units
 - 16.6.1 Market Overview
 - 16.6.2 Market Size & Forecast

17 COOLING TECHNIQUE

17.1 Market Snapshot & Growth Engine

17.2 Air-Based Cooling Technique

17.2.1 Market Overview

17.2.2 Market Size & Forecast

17.3 Liquid-Based Cooling Technique

17.3.1 Market Overview

Exhibit 3 Internet Penetration by Countries in Latin America in 2019 (%)

Exhibit 4 Impact of Demand for Cloud, Colocation, & Managed Service Providers

Exhibit 5 Impact of Increased Use of Big Data & IoT Technologies

Exhibit 6 Impact of Rising Interest for Modular/Containerized/POD Data Center Deployment

Exhibit 7 Impact of Development of Green Data Centers

Exhibit 8 Impact of Growth of Network Connectivity & High-speed Bandwidth

Exhibit 9 Impact of Increased Tax Incentives & Low Cost of Data Center Construction

Exhibit 10 Impact of Growing Rack Power Density in Data Centers

Exhibit 11 Rack Power Density in Data Center Market in Latin America (2010–2025)

Exhibit 12 Impact of Rising Cybersecurity Challenges

Exhibit 13 Impact of Lack of Skilled Workforce

Exhibit 14 Impact of Site Selection Constraints for Data Center Development

Exhibit 15 Impact of High Cost of Data Center Infrastructure

Exhibit 16 Impact of Adoption of Flash Storage Solutions

Exhibit 17 Impact of Increased Adoption of DCIM Solutions

Exhibit 18 Impact of Increasing Use of Free Cooling in Data Centers

Exhibit 19 Impact of Shift to Edge Data Center Deployments

Exhibit 20 Data Center Market in Latin America (Including IT Infrastructure) 2019–2025 (\$ billion)

Exhibit 21 Data Center Support Infrastructure Market in Latin America 2019–2025 (\$ billion)

Exhibit 22 Data Center IT Infrastructure vs Support Infrastructure Market in Latin America 2019–2025 (\$ billion)

Exhibit 23 Data Center Market in Latin America by Area 2019–2025 (Million Square Feet)

- Exhibit 24 Data Center Market in Latin America by Power Capacity 2019–2025 (MW)
- Exhibit 25 Five Forces Analysis 2019
- Exhibit 26 Incremental Growth by Application 2019?2025
- Exhibit 27 Data Center Market in Latin America by Infrastructure
- Exhibit 28 Data Center IT Infrastructure Market in Latin America 2019–2025 (\$ million)
- Exhibit 29 Data Center Electrical Infrastructure Market in Latin America 2019–2025 (\$ million)
- Exhibit 30 Data Center Mechanical Infrastructure Market in Latin America 2019?2025 (\$ million)
- Exhibit 31 Data Center General Construction Market in Latin America 2019?2025 (\$ million)
- Exhibit 32 Incremental Growth by IT Infrastructure 2019?2025
- Exhibit 33 Data Center Server Market in Latin America 2019?2025 (\$ million)
- Exhibit 34 Data Center Storage Market in Latin America 2019?2025 (\$ million)
- Exhibit 35 Data Center Network Market in Latin America 2019?2025 (\$ million)
- Exhibit 36 Incremental Growth by Electrical Infrastructure 2019?2025
- Exhibit 37 Data Center UPS Market in Latin America 2019?2025 (\$ million)
- Exhibit 38 Data Center Generator Market in Latin America 2019?2025 (\$ million)
- Exhibit 39 Data Center Transfer Switches & Switchgears Market in Latin America 2019?2025 (\$ million)
- Exhibit 40 Data Center Rack PDU Market in Latin America 2019?2025 (\$ million)
- Exhibit 41 Data Center Other Electrical Infrastructure Market in Latin America 2019?2025 (\$ million)
- Exhibit 42 Incremental Growth by Mechanical Infrastructure 2019?2025
- Exhibit 43 Data Center Cooling Systems Market in Latin America 2019?2025 (\$ million)
- Exhibit 44 Data Center Rack Market in Latin America in 2019?2025 (\$ million)
- Exhibit 45 Data Center Other Mechanical Infrastructure Market in Latin America 2019?2025 (\$ million)
- Exhibit 46 Incremental Growth by Cooling Systems 2019?2025
- Exhibit 47 Data Center CRAC & CRAH Units Market in Latin America 2019?2025 (\$ million)
- Exhibit 48 Data Center Chiller Units Market in Latin America 2019?2025 (\$ million)
- Exhibit 49 Data Center Economizers & Evaporative Coolers Market in Latin America 2019?2025 (\$ million)
- Exhibit 50 Data Center Cooling Towers & Dry Coolers Market in Latin America 2019?2025 (\$ million)
- Exhibit 51 Data Center Other Cooling Units Market in Latin America 2019?2025 (\$ million)
- Exhibit 52 Incremental Growth by Cooling Technique 2019?2025

- Exhibit 53 Data Center Liquid-based Cooling Market in Latin America 2019?2025 (\$ million)
- Exhibit 54 Data Center Liquid-based Cooling Market in Latin America 2019?2025 (\$ million)
- Exhibit 55 Incremental Growth by General Construction 2019?2025
- Exhibit 56 Data Center Building Development Market in Latin America 2019?2025 (\$ million)
- Exhibit 57 Data Center Installation & Commissioning Services Market in Latin America 2019?2025 (\$ million)
- Exhibit 58 Data Center Building Design Market in Latin America 2019?2025 (\$ million)
- Exhibit 59 Data Center Physical Security Market in Latin America 2018?2024 (\$ million)
- Exhibit 60 Data Center DCIM Market in Latin America 2019?2025 (\$ million)
- Exhibit 61 Incremental Growth by Mechanical Infrastructure 2019?2025
- Exhibit 62 Tier I & II Data Center Market in Latin America 2019–2025 (\$ million)
- Exhibit 63 Tier III Data Center Market in Latin America 2019–2025 (\$ million)
- Exhibit 64 Tier IV Data Center Market in Latin America 2019–2025 (\$ million)
- Exhibit 65 Incremental Growth by Geography 2019?2025
- Exhibit 66 Incremental Growth by Geography 2019?2025 (MW)
- Exhibit 67 Incremental Growth by Geography 2019?2025 (Million Square Feet)
- Exhibit 68 Snapshot- Data Center Market in Brazil 2019?2025
- Exhibit 69 Data Center Market in Brazil 2019–2025 (\$ million)
- Exhibit 70 Data Center Market in Brazil by Area 2019–2025 (Million Square Feet)
- Exhibit 71 Data Center Market in Brazil by Power Capacity 2019–2025 (MW)
- Exhibit 72 Data Center Electrical Infrastructure Market in Brazil 2019–2025 (\$ million)
- Exhibit 73 Data Center Mechanical Infrastructure Market in Brazil 2019–2025 (\$ million)
- Exhibit 74 Data Center General Construction Market in Brazil 2019–2025 (\$ million)
- Exhibit 75 Snapshot - Data Center Market in Chile 2019?2025
- Exhibit 76 Data Center Construction Market in Chile 2019–2025 (\$ million)
- Exhibit 77 Data Center Market in Chile by Area 2019–2025 (Million Square Feet)
- Exhibit 78 Data Center Construction Market in Chile by Power Capacity 2019–2025 (MW)
- Exhibit 79 Data Center Electrical Infrastructure Market in Chile 2019–2025 (\$ million)
- Exhibit 80 Data Center Mechanical Infrastructure Market in Chile 2019–2025 (\$ million)
- Exhibit 81 Data Center General Construction Market in Chile 2019–2025 (\$ million)
- Exhibit 82 Snapshot - Data Center Market in Colombia 2019?2025
- Exhibit 83 Data Center Market in Colombia 2019–2025 (\$ million)
- Exhibit 84 Data Center Market in Colombia by Area 2019–2025 (Million Square Feet)
- Exhibit 85 Data Center Market in Colombia by Power Capacity 2019–2025 (MW)
- Exhibit 86 Data Center Electrical Infrastructure Market in Colombia 2019–2025 (\$

million)

Exhibit 87 Data Center Mechanical Infrastructure Market in Colombia 2019–2025 (\$ million)

Exhibit 88 Data Center General Construction Market in Colombia 2019–2025 (\$ million)

Exhibit 89 Snapshot- Data Center Market in Rest of Latin America 2019–2025

Exhibit 90 Data Center Market in Rest of Latin America 2019–2025 (\$ million)

Exhibit 91 Data Center Market in Rest of Latin America by Area 2019–2025 (Million Square Feet)

Exhibit 92 Data Center Market in Rest of Latin America by Power Capacity 2019–2025 (MW)

Exhibit 93 Data Center Electrical Infrastructure Market in Rest of Latin America 2019–2025 (\$ million)

Exhibit 94 Data Center Mechanical Infrastructure Market in Rest of Latin America 2019–2025 (\$ million)

Exhibit 95 Data Center General Construction Market in Rest of Latin America 2018–2024 (\$ million)

I would like to order

Product name: Data Center Market in Latin America - Industry Analysis and Forecast 2020-2025

Product link: <https://marketpublishers.com/r/D114AC71D39EEN.html>

Price: US\$ 3,500.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

info@marketpublishers.com

Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/D114AC71D39EEN.html>
