Abstracts

COVID-19 is going to affect the data center market in Western Europe. A detailed analysis is included in the report.

The data center market in Western Europe by investment is expected to grow at a CAGR of over 1% during the period 2019–2025.

The implementation of the General Data Protection Regulations (GDPR) is expected to boost the data center market in Western Europe. As cloud-based services in Western Europe include hosting database, office software, financial and accounting, managing customer relationships and computer services, the demand for colocation, managed, and cloud-connectivity services will gain momentum. Several SMEs are looking to adopt cloud services such as PaaS and SaaS, and it is expected that more than 90% of SMEs in Western Europe will operate businesses through the cloud by 2024. The demand for hybrid infrastructure services is expected to grow at a CAGR of over 25% during the forecast period.

The increase in demand for data center services in Europe has led to the rise in merger and acquisition agreements. Also, data center construction is still growing at a significant rate, with large service providers investing in new construction and expansions in the European region. Besides, the data center colocation market in Europe is also witnessing increased interest from real estate and investment firms. The Europe data center market witnessed significant mergers and acquisition activities by US-based and APAC-based organizations. In 2019, QTS Realty Trust entered the market through the acquisition of TCN SIG Telehousing BV in the Netherlands. The market is also witnessing an increase in partnerships to develop and expand data center presence. For instance, Equinix partnered with GIC to invest over \$1 billion for

expansion activities in Europe in 2019.

The following factors are expected to contribute to the growth of the data center market in Western Europe during the forecast period:

Regulations driving Cloud Investments

Growth in Colocation & Hyperscale Investments

High Procurement of AI-based Servers

Increase in Procurement of Green Energy

Usage of Lithium-ion Batteries & Fuel Cells in Data Centers

Data Center Market in Western Europe: Segmentation

This research report includes detailed segmentation by IT infrastructure, electrical infrastructure, mechanical infrastructure, general construction, tier standards, and geography. The IT spending market is growing significantly YOY with Germany, Netherlands, the UK, France, and Ireland emerging as major markets. The growth is majorly driven by enterprises transforming from on-premise IT infrastructure to colocation and hyperscale and cloud operators. The server market witnessed strong growth in 2019. The procurement of ODM servers by hyperscale operators, cloud builders, and other enterprises has been a significant boost to the market. Several modern operators are involved in the adoption of server infrastructure that matches workload.

The demand for servers will continue to grow moderately as enterprises are likely to move to the cloud or colocation platforms during the forecast period. There will be an increase in demand for servers that support AI and ML application workloads. The market will also witness the adoption of AI servers as the market for high computing systems is increasing. The adoption of AI servers will increase during the forecast period in countries such as the UK, Germany, and the Netherland. There will be an increase in demand for servers with multicore processors, and the memory will grow as the average number of virtual machines per physical server continue to grow. Hyperscale operators are also expected to adopt advance storage mechanisms in new hyperscale facilities in the region.

The power systems market is expected to grow due to increasing greenfield construction, particularly greater than 10 MW. The penetration of lithium-ion battery systems is steadily growing in the market due to their reduced prices. The market is expected to look for integrated battery monitoring solutions along with infrastructure procurement at a low cost. The generators market will continue to grow because of the continuous construction of large and mega facilities. Several facilities in Western Europe adopt generators with low redundancy as they are supplied power from dual grids, with grid availability of over 99%. Also, there are facilities powered by renewable energy, where the need for redundant generators is low. The adoption of Diesel Rotary Uninterruptible Power Supply (DRUPS) systems is moderate in the market as they combine both battery and flywheel UPS topology and diesel generators to provide backup power during outages. These systems are highly reliable, efficient, and require less maintenance.

The favorable climatic conditions and the availability of renewable resources such as wind energy have helped data center operators to benefit from free cooling in the UK. Several facilities have adopted water-based cooling systems to cool their facilities. Also, the UK is the leading market for liquid-immersion cooling. Many data centers built in Germany are adopting free cooling to cool the facility. These facilities use redundant water and air-cooled system supported by free cooling with N+1 redundancy and CRAH units with N+1 configuration. In France, a majority of facilities are adopting free cooling solutions and several prefer water-based cooling using chillers. Facilities mostly prefer free cooling due to favorable climatic conditions. The facilities use CRAC units and chillers with free cooling in N+1 redundant configuration and cold aisle containment. The Netherlands market is witnessing significant growth in the adoption of free cooling systems. Enterprises are implementing redundant water and air-cooled systems supported by free cooling with N+1 redundancy and CRAH units with N+1 redundancy.

The data center market in Western Europe is expected to witness greenfield construction largely. High investments from hyperscale providers will become a major driver for revenue generation for general contractors and sub-contractors in the market. The UK market witnessed over 20 data center projects that were opened or under construction in 2019. Among them, about ten facilities were opened in 2019, and remaining facilities are likely to open by June 2020. Several facilities are built with multi-level security. There is an increasing demand for IP video surveillance systems in the market. APL, TPF Ingénierie, and CAP INGELEC are some of the notable players providing construction services in France. In terms of physical security, there is a growing demand for IP video surveillance systems in the market. A majority of facilities

developed in the Netherlands is expected to be greenfield development projects during the forecast period. Equinix, CyrusOne, Microsoft, Digital Realty, and Interxion carry out greenfield development in France.

Data centers of Tier II standards are designed with minimal redundancy. There are a few facilities in Western Europe that are Tier II certified based on designing and construction. In these facilities, redundancy is recognized between UPS and PDU systems. A majority of under-developed projects across the globe fall under the Tier III category. This trend is likely to continue in Western Europe during the forecast period, with many operators expected to move to Tier IV standards due to the growth in rack power density and critical data center applications. Germany is witnessing the highest number of Tier III facilities, followed by the UK, France, and the Netherlands. Most facilities in France are Tier III certified by the Uptime Institute. The use of OCP infrastructure is likely to increase among colocation providers in the country during the forecast period.

Insights by Geography

The adoption of cloud services is one of the major drivers for the UK data center market. Several government departments are migrating to the cloud environment. Over the past eight years, the government has saved over \$100 million in data center consolidation. With the UK likely to move out of the European Union, service providers are expected to face stringent rules and regulations regarding the storage and processing of data outside the country.

The IT and telecommunication industries are predominant adopters of cloud computing, followed by the transportation sector in the country. In Germany, NDC Data centre, Interxion, Digital Realty, Equinix, Global Switch, CyrusOne, NTT (e-Shelter), Etix Everywhere, and Colt DCS are the major investors invested in multiple facilities. In Germany, Frankfurt, Munich, Offenbach, and Hamburg witnessed investment in 2019.

Key Vendor Analysis

The Western Europe data center market continues to grow for greenfield, brownfield, and modular data center construction. The market is witnessing increased growth in the number of facilities, with high adoption of efficient and modular infrastructure solutions. It has a strong presence of vendors across all categories – IT, electrical, and mechanical infrastructure.

The adoption of ODM-based infrastructure solutions is increasing in penetration among enterprise operators in Europe. The deployment of OCP-ready data centers by colocation operators has aided this growth. HPE, Dell Technologies, Atos, IBM, Cisco, and Lenovo have a strong presence in the region.

Key Market Insights Include

The report provides the following insights into the data center market in Western Europe during the forecast period 2020–2025.

1. It offers comprehensive insights into current industry trends, trend forecasts, and growth drivers about the data center market in Western Europe.
2. The report provides the latest analysis of share, growth drivers, challenges, and investment opportunities.
3. It offers a complete overview of segments and the regional outlook of the data center market in Western Europe.
4. The study offers a detailed overview of the vendor landscape, competitive analysis, and key market strategies to gain competitive advantage.

Contents

1 RESEARCH METHODOLOGY

2 RESEARCH OBJECTIVES

3 RESEARCH PROCESS

4 SCOPE & COVERAGE

4.1 Market Definition

4.2 Base Year

4.3 Scope of The Study

4.4 Market Segments

4.4.1 Infrastructure

4.4.2 IT Infrastructure

4.4.3 Electrical Infrastructure

4.4.4 Mechanical Infrastructure

4.4.5 Cooling Systems

4.4.6 General Construction

4.4.7 Tier Standards

4.4.8 Market Segmentation by Geography

5 REPORT ASSUMPTIONS & CAVEATS

5.1 Key Caveats

5.2 Currency Conversion

5.3 Market Derivation

6 MARKET AT A GLANCE

7 INTRODUCTION

7.1 Internet & Data Growth

7.2 Electricity Pricing in Western Europe

7.3 Data Center Site Selection Criteria

7.3.1 Overview

7.3.2 Key Indicators

7.4 Submarine Fiber Cable Projects

8 IMPACT OF COVID-19

8.1 Impact of COVID-19 on Data Center Industry

8.1.1 Construction Perspectivity

8.1.2 Infrastructure Production & Procurement

8.1.3 Data Center Operations

8.2 Impact of Covid-19 in Western Europe

8.2.1 Market Investment Estimate

8.2.2 Estimated Investment Deferral Due to Covid-19

9 MARKET GROWTH ENABLERS

9.1 Regulations Drive Cloud Investment

9.2 Growing Colocation & Hyperscale Investments

9.3 IoT & Smart City Initiatives To Fuel Data Traffic

9.4 Increasing Procurement Of Ai-Based Servers

9.5 Rising Procurement Of All-Flash Arrays

10 MARKET GROWTH RESTRAINTS

10.1 Increase In Power & Network Outages

10.2 Location Constraints For Data Center Construction

10.3 Dearth Of Skilled Workforce

11 GROWTH OPPORTUNITIES & TRENDS

11.1 Increasing Procurement Of Green Energy

11.2 5G To Increase Edge Data Center Deployment

11.3 Increase In Rack Power Density

11.4 Adoption Of 200/400 GBE Switch Ports

11.5 M&As And Joint Ventures Fuel Market Growth

11.6 Usage Of Lithium-Ion Batteries & Fuel Cells In Data Centers

12 MARKET LANDSCAPE

12.1 Market Overview

12.2 Investment: Market Size & Forecast

12.3 Power Capacity: Market Size & Forecast

12.4 Area: Market Size & Forecast

12.5 Five Forces Analysis

12.5.1 Threat of New Entrants

12.5.2 Bargaining Power of Suppliers

12.5.3 Bargaining Power of Buyers

12.5.4 Threat of Substitutes

12.5.5 Competitive Rivalry

33 REPORT SUMMARY

33.1 Key Takeaways

34 QUANTITATIVE SUMMARY

34.1 Overall Market

34.2 Market By Infrastructure

34.3 Market By Support Infrastructure

34.4 Market by IT Infrastructure

34.5 Market by Electrical Infrastructure

34.6 Market by Mechanical Infrastructure

34.6.1 Market by Cooling Systems

34.6.2 Market by Cooling Technique

34.7 Market by General Construction

34.8 Market by Tier Standard

34.9 Regional Market by Investment

34.1 Regional Market by Area

34.11 Regional Market by Power Capacity

34.12 UK

34.12.1 Market in UK

34.12.2 Market by Infrastructure

34.13 Germany

34.13.1 Market in Germany

34.13.2 Germany by Infrastructure

34.14 Netherlands

34.14.1 Market in Netherlands

34.14.2 Netherlands by Infrastructure

34.15 France

34.15.1 Market in France

34.15.2 France by Infrastructure

34.16 Ireland

34.16.1 Market in Ireland

34.16.2 Ireland by Infrastructure

34.17 Other Western European Countries

34.17.1 Market in Other Western European Countries

34.17.2 Other Western European Country by Infrastructure

35 APPENDIX

35.1 Abbreviations

List Of Exhibits

Exhibit 1 Segmentation of Data Center Market in Western Europe

Exhibit 2 Market Size Calculation Approach 2019

Exhibit 3 Internet & Social Media Penetration Rate 2019

Exhibit 4 Average Monthly Data Traffic Per Mobile Subscription 2019

Exhibit 5 Most Active Social Media Platforms 2019

Exhibit 6 Price for Data Center Electricity in Western Europe (per KWh)

Exhibit 7 Impact of Regulations Drive Cloud Investment

Exhibit 8 Estimated Adoption of Cloud Computing among Enterprises in Western Europe 2019

Exhibit 9 Impact of Growing Colocation & Hyperscale Investments

Exhibit 10 Number of Colocation Data Center Projects by Countries 2019- June 2020

Exhibit 11 Impact of IoT & Smart City Initiatives to Fuel Data Traffic

Exhibit 12 Impact of Increasing Procurement of AI-based Servers

Exhibit 13 Impact of Rising Procurement of All-flash Arrays

Exhibit 14 Impact of Increase in Power & Network Outages

Exhibit 15 Impact of Location Constraints for Data Center Construction

Exhibit 16 Impact of Dearth of Skilled Workforce

Exhibit 17 Impact of Increasing Procurement of Green Energy

Exhibit 18 Impact of 5G to Increase Edge Data Center Deployment

Exhibit 19 Number of 5G Trials in Western European Countries

Exhibit 20 Comparison of 5G Networks across Western Europe 2019

Exhibit 21 Mobile, Smartphone, and Broadband Statistics in Western Europe 2018 & 2019

Exhibit 22 Impact of Increase in Rack Power Density

Exhibit 23 Average Installed Rack Power Density in Western Europe 2019 & 2025

Exhibit 24 Impact of Adoption of 200/400 GbE Switch Ports

Exhibit 25 Impact of M&As and Joint Ventures Fuel Market Growth

Exhibit 26 M&A Activities in 2019

Exhibit 27 Impact of Usage of Lithium-ion Batteries & Fuel Cells in Data Centers

Exhibit 28 Data Center Market in Western Europe by Investment 2019?2025 (\$ billion)

Exhibit 29 Data Center Market in Western Europe by Power Capacity 2019?2025 (MW)

Exhibit 30 Data Center Market in Western Europe by Area 2019?2025 (million square feet)

Exhibit 31 Five Forces Analysis 2019

Exhibit 32 Incremental Growth by Application 2019?2025

- Exhibit 33 Data Center Market in Western Europe by Infrastructure
- Exhibit 34 Data Center IT Infrastructure Market in Western Europe 2019–2025 (\$ billion)
- Exhibit 35 Data Center Electrical Infrastructure Market in Western Europe 2019–2025 (\$ billion)
- Exhibit 36 Data Center Mechanical Infrastructure Market in Western Europe 2019?2025 (\$ billion)
- Exhibit 37 Data Center General Construction Market in Western Europe 2019?2025 (\$ billion)
- Exhibit 38 Incremental Growth by Application 2019?2025
- Exhibit 39 Data Center Server Market in Western Europe 2019?2025 (\$ billion)
- Exhibit 40 Data Center Storage Market in Western Europe 2019?2025 (\$ billion)
- Exhibit 41 Data Center Network Market in Western Europe 2019?2025 (\$ billion)
- Exhibit 42 Incremental Growth by Electrical Infrastructure 2019?2025
- Exhibit 43 Data Center UPS Market in Western Europe 2019?2025 (\$ million)
- Exhibit 44 Data Center Generator Market in Western Europe 2019?2025 (\$ million)
- Exhibit 45 Data Center Transfer Switches & Switchgears Market in Western Europe 2019?2025 (\$ million)
- Exhibit 46 Data Center PDU Market in Western Europe 2019?2025 (\$ million)
- Exhibit 47 Data Center Other Electrical Infrastructure Market in Western Europe 2019?2025 (\$ million)
- Exhibit 48 Incremental Growth by Mechanical Infrastructure 2019?2025
- Exhibit 49 Data Center Cooling Systems Market in Western Europe 2019?2025 (\$ million)
- Exhibit 50 Data Center Rack Market in Western Europe in 2019?2025 (\$ million)
- Exhibit 51 Data Center Other Infrastructure Market in Western Europe 2019?2025 (\$ million)
- Exhibit 52 Incremental Growth by Cooling Systems 2019?2025
- Exhibit 53 Data Center CRAC & CRAH Market in Western Europe 2019?2025 (\$ million)
- Exhibit 54 Data Center Chiller Market in Western Europe 2019?2025 (\$ million)
- Exhibit 55 Data Center Economizers & Evaporative Coolers Market in Western Europe 2019?2025 (\$ million)
- Exhibit 56 Data Center Cooling Towers & Dry Coolers Market in Western Europe 2019?2025 (\$ million)
- Exhibit 57 Data Center Other Cooling Units Market in Western Europe 2019?2025 (\$ million)
- Exhibit 58 Incremental Growth by Cooling Technique 2019?2025
- Exhibit 59 Data Center Air-based Cooling Market in Western Europe 2019?2025 (\$ million)

- Exhibit 60 Data Center Liquid-based Cooling Market in Western Europe 2019?2025 (\$ million)
- Exhibit 61 Incremental Growth by General Construction 2019?2025
- Exhibit 62 Data Center Building Development Market in Western Europe 2019?2025 (\$ million)
- Exhibit 63 Data Center Installation & Commissioning Services Market in Western Europe 2019?2025 (\$ million)
- Exhibit 64 Data Center Building Design Market in Western Europe 2019?2025 (\$ million)
- Exhibit 65 Data Center Physical Security Market in Western Europe 2019?2025 (\$ million)
- Exhibit 66 Data Center DCIM Market in Western Europe 2019?2025 (\$ million)
- Exhibit 67 Incremental Growth by Tier Standards 2019?2025
- Exhibit 68 Tier I & II Data Center Market in Western Europe 2019–2025 (\$ million)
- Exhibit 69 Tier III Data Center Market in Western Europe 2019–2025 (\$ million)
- Exhibit 70 Tier IV Data Center Market in Western Europe 2019–2025 (\$ million)
- Exhibit 71 Incremental Growth in Western Europe by Area 2019?2025 (million square feet)
- Exhibit 72 Incremental Growth in Western Europe by Area 2019?2025 (million square feet)
- Exhibit 73 Incremental Growth in Western Europe by Power Capacity 2019?2025 (MW)
- Exhibit 74 Data Center Market in UK 2019?2025 (\$ million)
- Exhibit 75 Data Center Market in UK by Area 2019?2025 (million square feet)
- Exhibit 76 Data Center Market in UK by Power Capacity 2019?2025 (MW)
- Exhibit 77 Data Center Electrical Infrastructure Market in UK 2019?2025 (\$ million)
- Exhibit 78 Data Center Mechanical Infrastructure Market in UK 2019?2025 (\$ million)
- Exhibit 79 Data Center General Construction Market in UK 2019?2025 (\$ million)
- Exhibit 80 Data Center Market in Germany 2019?2025 (\$ million)
- Exhibit 81 Data Center Market in Germany by Area 2019?2025 (million square feet)
- Exhibit 82 Data Center Market in Germany by Power Capacity 2019?2025 (MW)
- Exhibit 83 Data Center Electrical Infrastructure Market in Germany 2019?2025 (\$ million)
- Exhibit 84 Data Center Mechanical Infrastructure Market in Germany 2019?2025 (\$ million)
- Exhibit 85 Data Center General Construction Market in Germany 2019?2025 (\$ million)
- Exhibit 86 Data Center Market in France 2019?2025 (\$ million)
- Exhibit 87 Data Center Market in France by Area 2019?2025 (million square feet)
- Exhibit 88 Data Center Market in France by Power Capacity 2019?2025 (MW)
- Exhibit 89 Data Center Electrical Infrastructure Market in France 2019?2025 (\$ million)

- Exhibit 90 Data Center Mechanical Infrastructure Market in France 2019?2025 (\$ million)
- Exhibit 91 Data Center General Construction Market in France 2019?2025 (\$ million)
- Exhibit 92 Data Center Market in Netherlands 2019?2025 (\$ million)
- Exhibit 93 Data Center Market in Netherlands by Area 2019?2025 (million square feet)
- Exhibit 94 Data Center Market in Netherlands by Power Capacity 2019?2025 (MW)
- Exhibit 95 Data Center Electrical Infrastructure Market in Netherlands 2019?2025 (\$ million)
- Exhibit 96 Data Center Mechanical Infrastructure Market in Netherlands 2019?2025 (\$ million)
- Exhibit 97 Data Center General Construction Market in Netherlands 2019?2025 (\$ million)
- Exhibit 98 Data Center Market in Ireland 2019?2025 (\$ million)
- Exhibit 99 Data Center Market in Ireland by Area 2019?2025 (million square feet)
- Exhibit 100 Data Center Market in Ireland by Power Capacity 2019?2025 (MW)
- Exhibit 101 Data Center Electrical Infrastructure Market in Ireland 2019?2025 (\$ million)
- Exhibit 102 Data Center Mechanical Infrastructure Market in Ireland 2019?2025 (\$ million)
- Exhibit 103 Data Center General Construction Market in Ireland 2019?2025 (\$ million)
- Exhibit 104 Data Center Market in Other Western European Countries 2019?2025 (\$ million)
- Exhibit 105 Data Center Market in Other Western European Countries by Area 2019?2025 (million square feet)
- Exhibit 106 Data Center Market in Other Western European Countries by Power Capacity 2019?2025 (MW)
- Exhibit 107 Data Center Electrical Infrastructure Market in Other Western European Countries 2019?2025 (\$ million)
- Exhibit 108 Data Center Mechanical Infrastructure Market in Other Western European Countries 2019?2025 (\$ million)
- Exhibit 109 Data Center General Construction Market in Other Western European Countries 2019?2025 (\$ million)
