In-depth Analysis and Data-driven Insights on the Impact of COVID-19 Included in this Germany Mobile Crane Market Strategic Assessment & Forecast Report

Germany mobile crane market size will be valued at USD 2027 million by 2027, growing at a compound annual growth rate (CAGR) of 4.15% by volume during 2021-2027

The German governments' long-term plan for the residential construction industry and investment in infrastructure projects are the major factors supporting the mobile crane market growth. Despite the pandemic situation, the FDI investment in the machinery and equipment sector has attracted foreign investors considerably. This will support the growth of construction equipment including the mobile crane market in the country.

GERMANY MOBILE CRANE MARKET INSIGHTS

Increasing focus on port infrastructure leading to the growing number of applications for mobile cranes.

Increasing demand for the installation of solar heating systems in Germany would pump up mobile crane sales.

2018 European Attractiveness Survey report reveals that Germany is one of the most attractive business destinations across the world and ranked 1st within the European Union Countries

KEY HIGHLIGHTS FROM THE REPORT

The government is taking several initiatives in the development of the exploration and extraction of mineral resources in Germany. The opening of new mines would boost the demand for mobile cranes used in the mining operation.

Over the next two decades, retrofitting and refurbishment of existing infrastructure will account for a higher percentage of residential and commercial construction, altering on-site equipment requirements.

The report considers the present scenario of the Germany mobile crane market and market dynamics for the forecast period 2021-2027. It covers a detailed overview of several growth enablers, restraints, and trends in the market. The study includes the volume and value sales with a segment analysis of the Germany mobile crane market.

GERMANY MOBILE CRANE MARKET SEGMENTATION ANALYSIS

Among the mobile cranes, crawler cranes are the largest. The demand for crawler cranes is largely driven as a result of increased investment in both building and civil engineering

All-terrain cranes hold the major share and are majorly used in the construction and manufacturing sector. The government's construction projects and infrastructure and real estate investment plans would result in a surge in demand for all-terrain cranes.
