Abstracts

The US point-of-care diagnostics market is expected to generate revenues of around \$11 billion by 2024, growing at a CAGR of more than 7% during 2018-2024.

The emergence of wearable medical devices, lab-on-a-chip technology, and growing usage of smartphones is driving the demand for point-of-care devices in the US market. The growing availability of rapid tests for diagnosing infectious diseases like HIV, TB or malaria, that enable physicians and patients to visualize the results from a smartphone and take appropriate clinical decisions will transform the market over the next few years. The US point-of-care diagnostics market is driven by the latest innovations in diagnostics industry is to provide an expedited diagnosis for quick clinical decision making to support treatment regimens. The growing need to deliver quantitative lab-quality results and transfer to an information system, or a healthcare professional, or store as an electronic medical record for future analysis and interpretation will drive the demand for new technologies in the US point-of-care diagnostics market. The market research report provides in-depth market analysis and segmental analysis of the US point-of-care diagnostics market by product, technology, usage type, and end-users.

The report considers the present scenario of the US point-of-care diagnostics market and its market dynamics for the period 2019-2024. It covers a detailed overview of various market growth enablers, restraints, and trends. The report segments the market based on the product type (POC analyzers and consumables); application type (blood glucose testing, cardiovascular and metabolic testing, infectious disease testing, blood coagulation testing, hematology testing, cancer testing, drugs of abuse testing, and pregnancy and fertility/ovulation testing); usage type (professional POC diagnostics and at-home POC diagnostics) and end-user type (professional healthcare settings, home care, and others), while elaborating the present market scenario and discussing the

futuristic demand in the market for POC diagnostics. It also profiles and analyzes the leading companies and various other prominent companies operating in the market. The report also discusses the future market growth, improvement areas, and strategic recommendations for the US point-of-care diagnostics market vendors.

Point-of-Care Diagnostics Market in US – Dynamics

The leading vendors are increasingly focusing on technological advancements and improvement is one of the major factors contributing to the growth of the US POC diagnostic market. The leading companies are leveraging technology for the development of highly advanced and innovative POC analyzers and rapid test kits in the US market. A broad range of acute and chronic diseases is encouraging players to develop advanced technological platforms, analyzers, test kits, and reagents in the market. The development of real-time PCR (qPCR) expanded the role of molecular diagnostics in the healthcare industry. The molecular diagnostic tests performed at POC setting or near the patients are resulting in breakthrough tests in recent years in the US market. Molecular testing can improve the specificity and sensitivity of existing near-patient and rapid diagnostic tests, thereby propelling the growth of the US POC diagnostic market. The increasing application of this diagnostic testing across laboratory settings will boost the demand in the market. The growing requirement for the early and accurate diagnosis of a specific ailment that results in effective treatment will lead to the demand in the US POC diagnostic market. With POC testing immediate decision making in cases of sepsis or stroke, quick, and precise confirmation of clinical findings is becoming easier in the market. xPOCT is known as a simultaneous on-site measurement of different analytes from a single sample, and it is gaining immense popularity in the US POC diagnostic market.

Point-of-Care Diagnostics Market in US – Segmentation

This market research report includes a detailed segmentation of the market by product, technology, usage type, and end-users. The US point-of-care diagnostics market by product is segmented into POC analyzers and consumables. Consumables segment dominated more than half of the total market share in 2018, growing at a CAGR of approximately 8% during the forecast period. The increasing use of various rapid tests across emergency care, physician offices, ambulatory settings, nursing homes, and by individuals for diagnosing various diseases is propelling the growth of this segment in the US market. The POC analyzers market is growing at a higher growth rate than clinical laboratory analyzers market as end-users are preferring analyzers which deliver immediate results with less turnaround time. Diagnostic tests with POC analyzers have

the capability to deliver results in hours and to make quick decision making for treating a disease. Therefore, increase in target population with various diseases is encouraging many end-users to procure compact and advanced POC analyzers for performing various diagnostic tests.

The application segment in the US point-of-care diagnostics market is classified into blood glucose testing, cardiovascular and metabolic testing, infectious disease testing, blood coagulation testing, hematology testing, cancer testing, drugs of abuse testing, and pregnancy and fertility/ovulation testing. Infectious disease testing is the fastest growing technology segment in the US market, at a CAGR of around 11% during the forecast period. The launch of POC diagnostics and rapid test kits providing accurate and quick diagnostics is propelling the growth of this segment in the US market. The growing prevalence of diabetes in the US and increasing demand for self-monitoring of blood glucose are the major factors contributing to this segment's growth. Around 10% of people have some form of diabetes in the country. The US point-of-care diagnostics market by end-user is categorized into professional healthcare settings, home care, and others. The professional healthcare segment occupied more than half of the total market share in 2018, growing at a CAGR of around 7% during the forecast period. The increasing use of point-of-care diagnostics technology for detecting of acute and chronic diseases is fueling the growth of this segment in the US market.

The increasing use of self-monitoring devices and test kits as an early symptom management tool and to manage high-risk chronically ill patients will drive the growth of the home care segment in the US market. The usage segment in the US point-of-care diagnostics market is divided into professional POC diagnostics and at-home POC diagnostics. At-home POC diagnostic is the fastest growing segment in the US market, at a CAGR of more than 7% during the forecast period. The cost-effective and quick results of this procedure are augmenting the growth of this segment in the US market. The increasing launch of many innovative and compact POC analyzers and the rapid test will contribute to the growing revenues in the US point-of-care diagnostics market.

Market Segmentation by Product

POC Analyzers

Consumables

Market Segmentation by Application

- Blood Glucose Testing
- Cardiovascular and Metabolic Testing
- Infectious Disease Testing
- Blood Coagulation Testing
- Hematology Testing
- Cancer Testing
- Drugs of Abuse Testing
- Pregnancy and Fertility/Ovulation Testing

Market Segmentation by Usage

- Professional POC Diagnostics
- At-Home POC Diagnostics

Market Segmentation by End-users

- Professional Healthcare Settings
- Home Care
- Others

Key Vendor Analysis

The US point-of-care diagnostics market is highly dynamic due to the presence of several international and regional players operating in the region. The vendors are

offering a diverse range of analyzers and kits to attract the maximum number of consumers in the US market. Strategic partnerships and consolidation will positively impact the development of the competitive landscape in the US. Effective strategies such as the expansion of product offerings, accessing new technology, and increasing market share will help companies survive the intense competition in the US point-of-care diagnostics market.

The major vendors in the US market are:

Abbott

F. Hoffmann-La Roche

Siemens Healthineers

Key companies to watch are:

Danaher

LifeScan

Ascensia Diabetes Care Holdings

Quidel

BD

Other prominent vendors include Abaxis, AgaMatrix, Arbor Vita, bioMerieux, Chembio Diagnostic Systems EKF Diagnostics USA, Exact Sciences, Instrumentation Laboratory, Meridian Bioscience, Sekisui Diagnostics, Sinocare, Sysmex America, Swiss Precision Diagnostics and Trinity Biotech.

Key market insights include

1. The analysis of US point-of-care diagnostics market provides market size and growth rate for the forecast period 2019-2024.
2. It offers comprehensive insights into current industry trends, trend forecast, and

growth drivers about the US point-of-care diagnostics market.

3. The report provides the latest analysis of market share, growth drivers, challenges, and investment opportunities.

4. It offers a complete overview of market segments and the regional outlook of US point-of-care diagnostics market.

5. The report offers a detailed overview of the vendor landscape, competitive analysis, and key market strategies to gain competitive advantage.

4 REPORT COVERAGE

4.1 Market Definition

4.2 Base Year

4.3 Scope of Study

4.3.1 Market Segmentation by Product Types

4.3.2 Market Segmentation by Application Types

4.3.3 Market Segmentation by Usage

4.3.4 Market Segmentation by End-user Types

5 REPORT ASSUMPTIONS & CAVEATS

5.1 Key Caveats

5.2 Inclusions

5.3 Exclusions

5.4 Currency Conversion

5.5 Market Derivation

6 MARKET AT A GLANCE

7 INTRODUCTION

7.1 POC: An Overview

8 MARKET DYNAMICS

8.1 Market Growth Enablers

8.1.1 Increase in Prevalence/Incidence of Several Acute and Chronic Diseases

8.1.2 New Product Approvals/Launches

8.1.3 Increasing Number of CLIA Waiver POC Tests

8.1.4 High Focus on Early Diagnosis and Disease Prevention

8.1.5 Vendors' Focus on Manufacturing Innovative POC Platforms for Existing and New Applications

8.1.6 YOY Impact of Market Growth Enablers

8.2 Market Growth Restraints

8.2.1 Time Consuming and Stringent Regulations for Approvals of POC Diagnostics

8.2.2 Limitations and Data Accuracy Challenges with POC Diagnostics

8.2.3 YOY Impact of Market Growth Restraints

8.3 Market Opportunities & Trends

8.3.1 Growing Demand for POC Molecular Diagnostic Testing

8.3.2 High Growth Potential for Multiplexed POC Diagnostic Testing (xPOCT)

8.3.3 Strategic Acquisitions

8.3.4 Robust Pipeline and Investigational POC Diagnostic Devices

8.3.5 Development of Microfluidic-based POC devices

8.3.6 YOY Impact of Market Opportunities & Trends

9 POINT-OF-CARE DIAGNOSTICS MARKET IN US

9.1 Market Overview

9.2 Market Size & Forecast

9.3 Porter's Five Forces Analysis

9.3.1 Threat of New Entrants

9.3.2 Bargaining Power of Suppliers

9.3.3 Bargaining Power of Buyers

9.3.4 Threat of Substitutes

9.3.5 Competitive Rivalry

10 BY PRODUCT

10.1 Market Overview

10.2 Consumables

10.2.1 Market Overview

10.2.2 Market Size & Forecast

10.3 POC Analyzers/Instruments

10.3.1 Market Overview

10.3.2 Market Size & Forecast

11 BY APPLICATION

11.1 Market Overview

- 11.2 Blood Glucose Testing
 - 11.2.1 Market Overview
 - 11.2.2 Market Size & Forecast
- 11.3 Cardiovascular and Metabolic Testing
 - 11.3.1 Market Overview
 - 11.3.2 Market Size & Forecast
- 11.4 Infectious Disease Testing
 - 11.4.1 Market Overview
 - 11.4.2 Market Size & Forecast
- 11.5 POC Blood Coagulation Testing
 - 11.5.1 Market Overview
 - 11.5.2 Market Size & Forecast
- 11.6 POC Hematology Testing
 - 11.6.1 Market Size & Forecast
- 11.7 POC Cancer Testing
 - 11.7.1 Market Overview
 - 11.7.2 Market Size & Forecast
- 11.8 POC Drugs of Abuse Testing
 - 11.8.1 Market Size & Forecast
- 11.9 Pregnancy and Fertility/Ovulation Testing
 - 11.9.1 Market Size & Forecast

12 BY END-USER

- 12.1 Market Overview
- 12.2 Professional Healthcare Settings
 - 12.2.1 Market Overview
 - 12.2.2 Professional Healthcare Settings: Market Size & Forecast
 - 12.2.3 Hospitals and Laboratories: Market Size & Forecast
 - 12.2.4 Ambulatory Care Settings: Market Size & Forecast
 - 12.2.5 Emergency Care/Urgent Care Centers: Market Size & Forecast
- 12.3 Home Care
 - 12.3.1 Market Overview
 - 12.3.2 Market Size & Forecast
- 12.4 Other End-users
 - 12.4.1 Market Size & Forecast

13 BY PRESCRIPTION

- 13.1 Market Overview
- 13.2 Professional POC Diagnostics
 - 13.2.1 Market Size & Forecast
- 13.3 At-home/OTC-based POC
 - 13.3.1 Market Size & Forecast

14 COMPETITIVE LANDSCAPE

- 14.1 Market overview
- 14.2 Market Vendor Share/Ranking Analysis

15 KEY COMPANY PROFILES

- 15.1 Abbott
 - 15.1.1 Business Overview
 - 15.1.2 Abbott in Point-of-care Diagnostics Market in US
 - 15.1.3 Major Product Offerings
 - 15.1.4 Key Strategies
 - 15.1.5 Key Strengths
 - 15.1.6 Key Opportunities
- 15.2 F. Hoffmann-La Roche
 - 15.2.1 Business Overview
 - 15.2.2 F. Hoffmann-La Roche in Point-of-care Diagnostics Market in US
 - 15.2.3 Major Product Offerings
 - 15.2.4 Key Strategies
 - 15.2.5 Key Strengths
 - 15.2.6 Key Opportunities
- 15.3 Siemens Healthineers
 - 15.3.1 Business Overview
 - 15.3.2 Siemens Healthineers in Point-of-care Diagnostics Market in US
 - 15.3.3 Major Product Offerings
 - 15.3.4 Key Strategies
 - 15.3.5 Key Strengths
 - 15.3.6 Key Opportunities

16 KEY COMPANIES TO WATCH

- 16.1 Danaher
 - 16.1.1 Business Overview

- 16.1.2 Danaher in Point-of-care Diagnostics Market in US
- 16.1.3 Product Offerings
- 16.1.4 Key Strategies
- 16.1.5 Key Strengths
- 16.1.6 Key Opportunities
- 16.2 LifeScan
 - 16.2.1 Business Overview
 - 16.2.2 Product Offerings
 - 16.2.3 Key Strategies
 - 16.2.4 Key Strengths
 - 16.2.5 Key Opportunities
- 16.3 Ascensia Diabetes Care Holdings
 - 16.3.1 Business Overview
 - 16.3.2 Product Offerings
 - 16.3.3 Key Strategies
 - 16.3.4 Key Strengths
 - 16.3.5 Key Opportunities
- 16.4 BD
 - 16.4.1 Business Overview
 - 16.4.2 BD in Point-of-care Diagnostics Market in US
 - 16.4.3 Product Offerings
 - 16.4.4 Key Strategies
 - 16.4.5 Key Strengths
 - 16.4.6 Key Opportunities
- 16.5 Quidel
 - 16.5.1 Business Overview
 - 16.5.2 Quidel in Point-of-care Diagnostics Market in US
 - 16.5.3 Product Offerings
 - 16.5.4 Key Strategies
 - 16.5.5 Key Strengths
 - 16.5.6 Key Opportunities

17 OTHER PROMINENT VENDORS

- 17.1 Abaxis
 - 17.1.1 Business Overview
 - 17.1.2 Product Offerings
- 17.2 ACON Laboratories
 - 17.2.1 Business Overview

- 17.2.2 Product Offerings
- 17.3 AgaMatrix
 - 17.3.1 Business Overview
 - 17.3.2 Product Offerings
- 17.4 Arbor Vita
 - 17.4.1 Business Overview
 - 17.4.2 Product Offerings
- 17.5 bioMerieux
 - 17.5.1 Business Overview
 - 17.5.2 Product Offerings
- 17.6 Chembio Diagnostic Systems
 - 17.6.1 Business Overview
 - 17.6.2 Product Offerings
- 17.7 EKF Diagnostics USA (Stanbio Laboratory)
 - 17.7.1 Business Overview
 - 17.7.2 Product Offerings
- 17.8 Exact Sciences
 - 17.8.1 Business Overview
 - 17.8.2 Product Offerings
- 17.9 Instrumentation Laboratory
 - 17.9.1 Business Overview
 - 17.9.2 Product Offerings
- 17.10 Meridian Bioscience
 - 17.10.1 Business Overview
 - 17.10.2 Product Offerings
- 17.11 Sekisui Diagnostics
 - 17.11.1 Business Overview
 - 17.11.2 Product Offerings
- 17.12 Sinocare
 - 17.12.1 Business Overview
 - 17.12.2 Product Offerings
- 17.13 Sysmex America
 - 17.13.1 Business Overview
 - 17.13.2 Product Offerings
- 17.14 Swiss Precision Diagnostics
