Abstracts

In-depth Analysis and Data-driven Insights on the Impact of COVID-19 Included in this Global Single-use Bioprocessing Market Report

The global single-use bioprocessing market by revenue is expected to grow at a CAGR of 17% during the period 2021–2026.

The outbreak of the COVID-19 pandemic has boosted the demand for single-use bioprocessing (SUB) technology. The ongoing robust R&D activities and clinical studies on the Covid-19 vaccine are encouraging many stakeholders to use SUB technology. Modalities such as covid-19 vaccine requirement, cell and gene therapies, and monoclonal antibodies are likely to influence the single-use bioprocessing market growth. The majority of biomanufacturing companies rely on advanced technology such as single-use systems to develop the vaccine.

The following factors are likely to contribute to the growth of the single-use bioprocessing market during the forecast period:

Increasing Strategic Acquisitions & Partnerships

New Product Launches

High Utilization of Single-use Bioprocessing for Covid-19 Vaccine Production

Technological Advances in SUB

The study considers the global single-use bioprocessing market's present scenario and its market dynamics for the period 2020-2026. It covers a detailed overview of several market growth enablers, restraints, and trends. The report offers both the demand and supply aspects of the market. It profiles and examines leading companies and other prominent ones operating in the market.

Global Single-Use Bioprocessing Market Segmentation

The global single-use bioprocessing market research report includes a detailed segmentation by product, application, end-user, method, geography. Single-use bioprocessing products are observing growth due to advances in equipment, higher scalability, and the increased application in the biopharmaceutical industry. Bioreactors and fermenters cover significant shares among SUB. The use of bioreactors and fermenters is growing for the development of biosimilars & biologics. The availability of single-use chromatography systems is considered a solution for single-use downstream bioprocessing. The use of membrane formats, scaling technologies, ion exchange technology, and polymeric column constructions is shifting end-users toward SUBs in downstream processes. Chromatography systems combined with tangential flow filtrations provide the highest productivity in downstream separation and purification steps.

The increased application of monoclonal antibodies (mABs) for the diagnosis and treatment of autoimmune disorders, cancer, and sexually transmitted infections (STIs) is boosting the single-use bioprocessing market growth. The production of mABs via single-use bioreactors reduces the operating cost and offers more flexibility than traditional stainless steel equipment. Also, the use of SUB in mABs manufacturing increases capacity, productivity, and flexibility. The utilization of SUBs in vaccine manufacturing is catching pace and is considered the smart method, especially during pandemics. They have become an ideal choice among manufacturers as they can be manufactured in a short time and do not require validation and have a reduced risk of contamination. Furthermore, single-use systems help enhance flexibility in small and large vaccine manufacturing and produce multiple products in a single suite.

Biopharmaceutical manufacturers occupy a significant share of the market, with single-use systems witnessing adoption in pre-commercial production processes. Several biopharmaceutical manufacturers have started to explore these solutions in commercial manufacturing. However, their potential benefits are significant, particularly for small-volume manufacturing in modular facilities. With the advent of single-use bioprocessing, the bioprocessing industry's dynamics have changed, enabling companies to develop

new biologics with higher flexibility and low upfront costs. As technology has become increasingly popular, many companies are becoming interested in the widespread adoption of single-use bioprocessing.

Advances in the cell culture process and biopharmaceutical manufacturing is leading to the development of innovative single-use technology. Single-use bioreactors are increasingly used for animal and human cell production processes. SUBs in mammalian cell culture result in high flexibility, reduced cost, and enhanced product productivity. They are increasingly being used for small-batch, large-batch volumes, clinical trials, and process development.

Product

- Single-use Bioprocessing Equipment

- Simple & Peripheral Devices

Application

- Monoclonal Antibodies (mABs)

- Vaccines

- Cell Therapies

- Others

End-users

- Biopharmaceutical Manufacturers

- Contract Manufacturing Organizations (CMOs)

- R&D Companies & Research Institutes

Method

Filtration

Storage & Transport

Cell Culture

Mixing

Purification

INSIGHTS BY GEOGRAPHY

North America and Europe constitute over 75% of the market share; however, the APAC region is expected to grow at the fastest CAGR of over 19% during the period 2020–2026. The increasing spending on biopharmaceutical research activities in the US and Canada, the presence of large-scale manufacturing facilities, and the growing demand for single-use technology contribute to the region's growth.

INSIGHTS BY VENDORS

Thermo Fisher Scientific, Sartorius Stedim Biotech, Merck KGaA, Danaher Corporation, and Avantor are the key vendors operating in the global single-use bioprocessing

market. The key players are increasing their focus on mergers and acquisitions in the past few years. With the sudden onset of the COVID-19 pandemic, vendors target vaccine developers and offer customized and flexible SUB technology. Acquisitions of emerging/small, specialized single-use suppliers, product portfolio development, expansion in regional markets, and strengthening of global distribution networks are the major strategies adopted by vendors in the market.

Prominent Vendors

Thermo Fisher Scientific

KEY QUESTIONS ANSWERED

1. How are product launches and technological advancements affecting the single-use bioprocessing market?
2. What is the impact of COVID-19 in the SUB market?
3. What is the market size and growth rate of the single-use bioprocessing market?
4. Who are the key players in the market? What are significant acquisitions &

collaborations witnessed in the market?

5. Which region is likely to be the highest revenue generator in the market?

6. What are the factors driving the growth of the single-use bioprocessing market during the forecast period?

4 SCOPE & COVERAGE

4.1 Market Definition

4.1.1 Inclusions

4.1.2 Exclusions

4.2 Base Year

4.3 Scope of The Study

4.3.1 Market Segmentation By Product

4.3.2 Market Segmentation By Application

4.3.3 Market Segmentation By End-User

4.3.4 Market Segmentation By Method

4.3.5 Market Segmentation By Geography

5 REPORT ASSUMPTIONS & CAVEATS

5.1 Key Caveats

5.2 Currency Conversion

5.3 Market Derivation

6 MARKET AT A GLANCE

7 INTRODUCTION

7.1 Overview

7.2 Single-Use Bioprocessing: Market Snapshot

8 MARKET OPPORTUNITIES & TRENDS

8.1 Increasing Strategic Acquisitions & Partnerships

8.2 New Product Launches

8.3 High Utilization of Single-Use Bioprocessing For COVID-19 Vaccine Production

8.4 Technological Advances Witnessed In SUB

9 MARKET GROWTH ENABLERS

9.1 Increasing Adoption of Single-Use Technologies Over Multi-Use Platforms

9.2 Reduced Water Consumption and Lesser Environment Impact Of Single-Use Technologies

9.3 Lower Risk of Cross Contamination and Lower Manufacturing Cost

9.4 High Uptake of Biopharmaceuticals & Biosimilars

9.5 Increasing Demand for Flexible Bioprocessing And Less Floor Space Requirements

10 MARKET RESTRAINTS

10.1 Leachables & Extractables With Single-Use Bioprocessing

10.2 High-Cost of Single-Use Bioprocessing

10.3 Challenges With Scalability, Product Compatibility And Compliance

10.4 Regulatory Uncertainties Impacting the Adoption of Single-Use Bioprocessing

11 MARKET LANDSCAPE

11.1 Market Overview

11.1.1 Impact of COVID-19 on the Single-Use Bioprocessing Market

11.2 Market Size & Forecast

11.3 Five Forces Analysis

11.3.1 Threat of New Entrants

11.3.2 Bargaining Power of Suppliers

11.3.3 Bargaining Power of Buyers

11.3.4 Threat of Substitutes

11.3.5 Competitive Rivalry

12 PRODUCT

12.1 Market Snapshot & Growth Engine

12.2 Market Overview

12.3 Single-Use Bioprocessing Equipment

12.3.1 Market Overview

12.3.2 Market Size & Forecast

12.4 Simple & Peripheral Elements

12.4.1 Market Overview

12.4.2 Market Size & Forecast

13 APPLICATION

13.1 Market Snapshot & Growth Engine

13.2 Market Overview

13.3 Monoclonal Antibodies

13.3.1 Market Overview

13.3.2 Market Size & Forecast

13.4 Vaccines

13.4.1 Market Overview

13.4.2 Market Size & Forecast

13.5 Cell Therapies

13.5.1 Market Overview

13.5.2 Market Size & Forecast

13.6 Others

13.6.1 Market Overview

13.6.2 Market Size & Forecast

14 END-USER

14.1 Market Snapshot & Growth Engine

14.2 Market Overview

14.3 Biopharmaceutical Manufacturers

14.3.1 Market Overview

14.3.2 Market Size & Forecast

14.4 CMOs

14.4.1 Market Overview

14.4.2 Market Size & Forecast

14.5 R&D Companies and Research Institutes

14.5.1 Market Overview

14.5.2 Market Size & Forecast

15 METHOD

15.1 Market Snapshot & Growth Engine

Exhibit 108 Number of Biologics Patent Expiries and Sales at Risk from 2015–2030 (\$ billion)

Exhibit 109 Single-use Bioprocessing Market in APAC 2020?2026 (\$ million)

Exhibit 110 Incremental Growth by Product 2020 & 2026

Exhibit 111 Incremental Growth by Application 2020 & 2026

Exhibit 112 Incremental Growth by End-user 2020 & 2026

Exhibit 113 Incremental Growth in APAC 2020 & 2026

Exhibit 114 Prevalence Rates of Chronic Diseases in Rural Chinese Population

Exhibit 115 Research and Development Investment in China 2018 & 2019 (\$ billion)

Exhibit 116 Single-use Bioprocessing Market in China 2020?2026 (\$ million)

- Exhibit 117 Prevalence of Chronic Diseases in Japan's Elderly Population
- Exhibit 118 Research & Development Expenditure in Japan by % Share GDP
- Exhibit 119 Single-use Bioprocessing Market in Japan 2020?2026 (\$ million)
- Exhibit 120 Percentage Share of Aged 65 Years & Above Over Past Decade in Australia (%)
- Exhibit 121 Single-use Bioprocessing Market in Australia 2020?2026 (\$ million)
- Exhibit 122 Percentage Prevalence of Disease Conditions in South Korea
- Exhibit 123 Single-use Bioprocessing Market in South Korea 2020?2026 (\$ million)
- Exhibit 124 Percentage of Individuals Suffering from One or More Chronic Conditions by Age and Gender
- Exhibit 125 Single-use Bioprocessing Market in India 2020?2026 (\$ million)
- Exhibit 126 Percentage of Aging Population in Latin America 2010?2050 (%)
- Exhibit 127 Single-use Bioprocessing Market in Latin America 2020?2026 (\$ million)
- Exhibit 128 Incremental Growth by Product 2020 & 2026
- Exhibit 129 Incremental Growth by Application 2020 & 2026
- Exhibit 130 Incremental Growth by End-user 2020 & 2026
- Exhibit 131 Incremental Growth in Latin America 2020 & 2026
- Exhibit 132 Increasing Aging Population in Brazil from 2012 to 2050 (million)
- Exhibit 133 Single-use Bioprocessing Market in Brazil 2020?2026 (\$ million)
- Exhibit 134 Estimated Increasing Trends in Breast and Lung Cancer in Mexicans
- Exhibit 135 Single-use Bioprocessing Market in Mexico 2020?2026 (\$ million)
- Exhibit 136 Burden of Chronic NCDs in Colombia in Accordance with Age
- Exhibit 137 Single-use Bioprocessing Market in Colombia 2020?2026 (\$ million)
- Exhibit 138 Growing Elderly Population from 2019 to 2100 in Argentina
- Exhibit 139 Single-use Bioprocessing Market in Argentina 2020?2026 (\$ million)
- Exhibit 140 Number of Patient Population Suffering from Chronic Diseases in Middle East and Africa (million)
- Exhibit 141 Single-use Bioprocessing Market in Middle East & Africa 2020?2026 (\$ million)
- Exhibit 142 Incremental Growth by Product 2020 & 2026
- Exhibit 143 Incremental Growth by Application 2020 & 2026
- Exhibit 144 Incremental Growth by End-user 2020 & 2026
- Exhibit 145 Incremental Growth in Middle East & Africa 2020 & 2026
- Exhibit 146 Prevalence of Chronic Kidney Disease Among Obese Population in Turkey
- Exhibit 147 Single-use Bioprocessing Market in Turkey 2020?2026 (\$ million)
- Exhibit 148 Percentage Burden of Chronic Diseases in Saudi Arabia (%)
- Exhibit 149 Single-use Bioprocessing Market in Saudi Arabia 2020?2026 (\$ million)
- Exhibit 150 Prevalence of Diabetes in UAE Based on Gender and Age
- Exhibit 151 Single-use Bioprocessing Market in UAE 2020?2026 (\$ million)

- Exhibit 152 Prevalence of Various Chronic Diseases in South Africa
- Exhibit 153 Single-use Bioprocessing Market in South Africa 2020?2026 (\$ million)
- Exhibit 154 Thermo Fisher Scientific Revenue 2017?2019 (\$ million)
- Exhibit 155 Thermo Fisher Scientific Revenue Share by Segments in FY2018 & 2019 (\$ million)
- Exhibit 156 Thermo Fisher Scientific Revenue Share by Region 2018 & 2019 (\$ million)
- Exhibit 157 Thermo Fisher Scientific R&D Investments from FY2017?2019 (\$ million)
- Exhibit 158 Sartorius Stedim Biotech Total Revenue from FY2017?2019 (\$ million)
- Exhibit 159 Sartorius Stedim Biotech R&D Investments 2017?2019 (\$ million)
- Exhibit 160 Sartorius Stedim Biotech Revenue Share by Regions 2018& 2019 (\$ million)
- Exhibit 161 Danaher Revenue FY2017?2019 (\$ million)
- Exhibit 162 Danaher Revenue Share by Segments in 2018 & 2019 (\$ million)
- Exhibit 163 Danaher Revenue Generated by Geographic Regions 2018 & 2019 (\$ million)
- Exhibit 164 Danaher R&D Investment 2017?2019 (\$ million)
- Exhibit 165 Merck KGaA Total Revenue Generated (FY2017?2019) (\$ million)
- Exhibit 166 Merck KGaA Revenue Generated by Segments in FY2018 & 2019 (\$ million)
- Exhibit 167 Merck KGaA Revenue Share by Regions 2018 & 2019 (\$ million)
- Exhibit 168 Merck KGaA R&D Investment FY2017?2019 (\$ million)
- Exhibit 169 Avantor Total Revenue FY2017?2019 (\$ million)
- Exhibit 170 Avantor Revenue Share by Segment based on Geography 2018& 2019 (\$ million)

I would like to order

Product name: Single-use Bioprocessing Market - Global Outlook and Forecast 2021-2026

Product link: <https://marketpublishers.com/r/SCC5060FB04EN.html>

Price: US\$ 3,750.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

info@marketpublishers.com

Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/SCC5060FB04EN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:
