## Abstracts

In-depth Analysis and Data-driven Insights on the Impact of COVID-19 Included in this Global Water Desalination Market Report

The global water desalination market by revenue is expected to grow at a CAGR of 9.32% during the period 2021–2026.

The following factors are likely to contribute to the growth of the oleochemical market during the forecast period:

- Desalination with Renewable Energy Systems
- Hybrid Desalination Process
- Depleting Freshwater Resources
- Increasing Population and Rapid Urbanization
- Implementation of Stricter Regulatory Requirements
- Emergence of New Technologies

## WATER DESALINATION MARKET INSIGHTS

Rapid industrialization and effective wastewater management systems are factors propelling the water desalination market growth.

Several other key growth-stimulating factors include technological innovations, such as developing hybrid desalination processes and multi-stage (MSF) distillation technology. Most of the demand arises for the desalination process from municipal end-uses.

## SNIPPETS

In 2020, the Middle East & Africa region dominated the water desalination industry.

Implementation of stringent regulations in industries and power plants regarding wastewater disposal is a key factor driving the growth of the water desalination market.

The membrane technology segment dominated the water desalination market in 2020 and is expected to witness absolute growth by 2026

The report considers the present scenario of the global water desalination market and its market dynamics for the period 2021-2026. It covers a detailed overview of several market growth enablers, restraints, and trends. The study covers both the demand and supply sides of the market. It also profiles and analyses leading companies and several other prominent companies operating in the market.

## WATER DESALINATION MARKET SEGMENTATION

This research report includes a detailed segmentation by

Technology

Application

Water source

Geography

### Market Segmentation by Technology

Membrane Technology

Thermal Technology

Renewable Technologies

#### Market Segmentation by Application

Municipal

Industrial

Others

#### Market Segmentation by Water source

Seawater

Brackish Water

Ground Water and Surface Water

#### GEOGRAPHICAL ANALYSIS

The global water desalination market is highly developed in Middle East & Africa, APAC, and North America, owing to the growing usage of desalination widely for water reuse purposes in a municipal application.

The Middle East & Africa region was the largest market for water desalination.

The APAC region is anticipated to witness the fastest growth during the forecast period.

#### Market Segmentation by Geography

Middle East and Africa

GCC

South Africa

APAC

China

India

Japan

South Korea

Australia

North America

## VENDOR ANALYSIS

The global water desalination industry is highly fragmented, with many small and medium-sized manufacturers accounting for a major share of the market. However, the market is dominated by large players holding a significant market share.

The companies are determined to widen their product offerings and strengthen their market position through acquisitions and partnerships. Customers are progressively looking for system suppliers who can offer complete solutions for diverse water requirements and for vendors who deliver value-added services.

### Prominent Vendors

Acciona

Doosan heavy industries & construction

IDE Technologies

SUEZ

VEOLIA

### Other Prominent Vendors

Aquatech International

Evoqua Water Technologies

XYLEM

Koch Separation Solutions

Genesis Water Technologies

Dow

Abengoa

Ferrovial

Biwater

Fisia Italimpianti

WETICO (Water & Environment Technologies)

Safbon Water Technology

WABAG

Metito

Zhuhai Wangyang Water Treatment Equipment

Hitachi Zosen Corporation

Siemens

Fluence

Pall Corporation

Alfa Laval

## KEY QUESTIONS ANSWERED:

1. How big is the water desalination market?

2. What is the water desalination market growth?
3. What are the factors driving the water desalination market?
4. Who are the key players in the water desalination industry?
5. Which segment accounted for the largest water desalination market share?
