Abstracts

After experiencing good growth in the starting of 2010, the US gambling and casinos industry has been stagnating in recent years and it is expected to further decline in the coming years to 2022. As more and more states consider making online gambling and sports betting legal, the online gambling sector is expanding like never before. This has left traditional forms of gambling behind, causing a stagnation in the industry.

The industry has a handful of big names that dominate the gambling and casinos industry not just in the US, but worldwide. The US gaming industry is dominated by Las Vegas.
