Abstracts

Africa has some of the biggest mines in the world. Some of the largest mineral reserves in Africa include bauxite, cobalt, diamonds, platinum group metals, gold, iron ore, copper, etc. Aruvian Research presents an analysis of some of the major mines in Africa in its research report Analyzing the Major Mines in Africa 2016.

The report begins with an overview of the mining industry in Africa through an industry background, industry overview and an outlook for the mining industry in Africa.

An analysis of over 160 mines in Africa is carried out in this report. While we give a brief profile of some mines, others are analyzed in more details including their output, location, geology, etc.
