Abstracts

Australia recently put in place a new carbon emissions regulation that is likely to have an impact on the Australian petrochemical industry. The petrochemical industry in Australia needs to be exploited to its full potential still. With most domestic and foreign players investing into the LNG market in the country along with in gas production, the petrochemical capacities in Australia remain static.

It is expected that some new investment in the industry as well as the large hydrocarbon resources in Australia is likely to boost the growth of the Australian petrochemical industry.

Aruvian Research analyzes the petrochemical industry in Australia in its research report Analyzing the Petrochemical Industry in Australia. The report begins with an analysis of the global petrochemical industry and moves on to the analysis of the petrochemical industry in Australia. We analyze the petrochemical industry in Australia through industry statistics, feedstock capacity in the country, industry developments as well as the market for LNG.

Factors impacting the industry are analyzed along with an industry forecast till 2017. We also include an analysis of the major industry players such as Australian Vinyls Corporation, BP Australia, Caltex Australia, Huntsman Chemical, MEO Australia, amongst others.

Contents

A. EXECUTIVE SUMMARY

B. GLOBAL PETROCHEMICAL INDUSTRY

C. PETROCHEMICAL INDUSTRY IN AUSTRALIA

C.1 Industry Statistics

C.2 Feedstock Overview

C.3 Industry Developments

C.4 Market for LNG

D. FACTORS IMPACTING THE INDUSTRY

E. INDUSTRY FORECAST

F. MAJOR INDUSTRY PLAYERS

F.1 Australian Vinyls Corporation Pty Ltd

F.2 BP Australia Pty Ltd

F.3 Caltex Australia Limited

F.4 Deepak Fertilisers and Petrochemicals

F.5 Huntsman Chemical

F.6 LyondellBasell Industries

F.7 MEO Australia

F.8 Leading Synthetics Pty Ltd

F.9 Qenos Holdings

F.10 The Shell Company of Australia Ltd.

F.11 Yara International

G. GLOSSARY OF TERMS
