## Abstracts

Although biofuels are mainly used to replace or supplement the traditional petroleum-based transportation fuels, they can also be deployed to generate heat and electricity. Being an alternative to fossils, biofuels can be applied to existing vehicles with little or no engine modification. Although they release CO<sub>2</sub> when burned in internal combustion engines, they differ from fossil fuels partly because their use reduces the net emission of carbon dioxide and other gases associated with global climate change and partly because they are biodegradable.

The recent sustained increase in international oil prices has once again highlighted the potential for biofuels to contribute to transport fuel demand, particularly in countries that import the bulk of fossil fuel supplies. Global concerns about the effects of fossil fuel use on the environment, as well as recognition of the benefits of energy supply diversification also support increasing biofuels production and use.

There is a lot happening in the field of biofuels in Canada, and to capture these, Aruvian's R'search brings you the complete guide to the Canadian Biofuels Industry – Analyzing the Biofuel Industry in Canada.

The report begins with an analysis of the basic know-hows one needs to be familiar with before starting on the fascinating journey of discovering the biofuels industry in Canada. The economics of biofuels, issues facing the industry, regulatory barriers as well as incentives, technologies involved, major types of biofuels, and many other topics are discussed in depth at the starting of the report.

Divided into four sections, Aruvian's report then moves on to Section 2, which analyzes the Canadian Energy Industry. From looking at the energy challenges facing the country to the rising demand for energy in the country, the section also takes a look at the various sectors of the energy industry such as oil, natural gas, coal, amongst others.

Section 3 is focused on the Canadian Biofuels Industry. History of the industry's development through the years, the biofuel policy in Canada, the strategic implementation of the biofuel policy, and much more is discussed in the report.

Section 3 is also a complete analysis of the biodiesel and ethanol industry in Canada. Market overview, statistics, R&D profile, production, and end-use technologies are just some of the points focused on in the section.

The economics, prices and competitiveness of biodiesel and ethanol in Canada is also touched upon, along with the benefits of biodiesel and ethanol and the barriers facing the development of biofuels in Canada.

Section 3 also profiles the leading industry players, thus concluding the report.

Grab a copy of this report and get up-to-date on A to Z of the Canadian Biofuels Industry.

## Contents

### EXECUTIVE SUMMARY

### SECTION 1: UNDERSTANDING BIOFUELS

#### A. WHAT ARE BIOFUELS?

- A.1 History of Biofuels
- A.2 Major Biofuels
- A.3 Uses of Biofuels
- A.4 What are Direct Biofuels?
- A.5 Looking at Biobutanol
- A.6 Looking at Ethanol & Biodiesel
  - A.6.1 Ethanol
  - A.6.2 Biodiesel
- A.7 Pros & Cons of Biofuels
- A.8 Future of Biofuels

#### B. ECONOMICS OF BIOFUELS

- B.1 Feedstock Costs
- B.2 Processing Costs
- B.3 Cost of Sales & Use
- B.4 Overall Cost
- B.5 Retail Cost & Tax Incentives

#### C. IMPACT OF BIOFUELS

- C.1 Policy Impact on Biofuels
- C.1 Environmental & Economic Impact of Biofuels
- C.1 Impact on Engines
- C.1 Impact on Rural Development

#### D. METAMORPHOSIS OF THE ENERGY INDUSTRY & BIOFUELS

### SECTION 2: LOOKING AT CANADA'S ENERGY INDUSTRY

#### A. OVERVIEW OF CANADA'S ENERGY INDUSTRY

- A.1 Overview
- A.2 History of Canada's Energy Industry
- A.3 Constitutional Issues in Canada's Energy Policy
- A.4 Energy Production & Consumption Trends
- A.5 Energy Demand by the Transportation Industry
- A.6 Import-Export Scenario

## **B. ANALYZING THE OIL MARKET IN CANADA**

- B.1 Market Profile
- B.2 Market Structure
- B.3 Oil Exploration & Production
- B.4 Oil Sands of Canada
- B.5 Offshore Projects
- B.6 Pipeline Network
- B.7 Export-Import Scenario
- B.8 Oil Refining Sector

## **C. ANALYZING THE NATURAL GAS MARKET IN CANADA**

- C.1 Market Profile
- C.2 Natural Gas Exploration & Production
- C.3 Unconventional Natural Gas Sources
- C.4 Pipeline Network

### **C.5 LNG**

- C.6 Sector Outlook

## **D. ANALYZING CANADA'S ELECTRICITY MARKET**

- D.1 Overview
- D.2 Alberta
- D.3 Manitoba
- D.4 New Brunswick
- D.5 Ontario
- D.6 Quebec
- D.7 Newfoundland and Labrador

D.8 Saskatchewan

D.9 Yukon

## **E. ANALYZING CANADA'S COAL INDUSTRY**

E.1 History of Coal in Canada

E.2 Present-day Coal Industry

## **F. NUCLEAR POWER IN CANADA**

F.1 Overview

F.2 Generating Power from Nuclear Energy

F.3 Prominence of Medical Radioisotopes in Canada

F.4 Production of Uranium

F.5 Managing Nuclear Waste

## **SECTION 3: ANALYZING CANADA'S BIOFUEL INDUSTRY**

### **A. INDUSTRY OVERVIEW**

A.1 Introduction

A.2 Drivers for the Biofuels Policy

A.3 Canada's Biofuel Policy

A.3.1 Biofuel Targets

A.3.2 Excise Duty Reductions

A.3.3 Biofuel Obligations

A.3.4 Investment Subsidies

A.3.5 Other Measures

A.4 Canadian Biofuel Development by Province

A.5 Biofuel Policies

A.5.1 Alberta

A.5.2 British Columbia

A.5.3 Manitoba

A.5.4 Saskatchewan

A.5.5 Ontario

A.5.6 Quebec

A.6 Biofuel Import Regime

### **B. ANALYZING THE ETHANOL INDUSTRY IN CANADA**

- B.1 Production and Distribution Statistics
- B.2 Canada's Ethanol Production Business Models
  - B.2.1 Energy Producer and Marketers
  - B.2.2 Grain Based Ethanol Plants with Producer Equity
  - B.2.3 Renewable Energy Firms

## **C. ANALYZING THE BIODIESEL INDUSTRY IN CANADA**

- C.1 Production and Distribution Statistics
- C.2 Canada's Biodiesel Production Business Models

## **D. ECONOMIC OF BIOFUELS IN CANADA**

- D.1 Overview
- D.2 Cost of Production in the Long Term
- D.3 Effect of Ethanol Production on Canada's Feedstock Markets
  - D.3.1 Ethanol Production from Corn
  - D.3.2 Ethanol Production from Wheat
  - D.3.3 Ethanol Production from Sugarcane/Sugar Beets
- D.4 Effect of Biodiesel Production on Canada's Feedstock Markets
  - D.4.1 Biodiesel Production from Canola & Animal Fats or Oil
- D.5 Trade Impact

## **E. CASE STUDY: CELLULOSIC FEEDSTOCK – FUTURE OF ETHANOL IN CANADA**

## **F. LEADING INDUSTRY CONTRIBUTORS**

- F.1 Agricore United
- F.2 BBI Biofuels
- F.3 Bifrost Bio-Diesel
- F.4 BIOX Corporation
- F.5 Bunge Canada
- F.6 Canada Clean Fuels Inc.
- F.7 Canadian Bioenergy Corporation
- F.8 Degussa Canada Ltd
- F.9 Ensask Biofuels
- F.10 GreenField Ethanol
- F.11 Iogen Corporation

- F.12 Island Biodiesel Co-op
- F.13 Monsanto Canada
- F.14 Nelson Biodiesel Co-op
- F.15 Northern Ethanol
- F.16 Ocean Nutrition Canada
- F.17 Phillips BioFuel Supply
- F.18 Suncor Energy Products Inc.
- F.19 The Biodiesel Company
- F.20 Topia Energy Production Ltd
- F.21 Vancouver Biodiesel Co-op
- F.22 West Coast Biodiesel Limited
- F.23 WISE Energy

## **SECTION 4: CONCLUSION**

### **A. APPENDIX**

### **B. GLOSSARY OF TERMS**

## I would like to order

Product name: Analyzing the Biofuels Market in Canada

Product link: <https://marketpublishers.com/r/AC5D53DEF67EN.html>

Price: US\$ 400.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
