Abstracts

The UAE food retail sector continues its aggressive growth. More large type stores are being built. The French Retail Giant, Carrefour, has moved aggressively into the retail of food and non-food products in the United Arab Emirates and is expected to open at more locations across the UAE. Other Arabian Peninsula markets are definitely in the cards for this retailer as consumers go more and more for low prices and everything under one roof.

Aruvian Research's report Analyzing Food Retail in the UAE 2016 is a complete insight into the UAE food purchase and consumption pattern which is helping international hyper marketers and retail giants to focus and understand the UAE food market better and prepare for eventual investment or wait decisions.

This report provides a market synopsis of the break up segmentation of the food retail industry setup as prevalent in UAE and how the changing food consumption patterns of the UAE population are leading the change for shift of focus to processed food retailing supermarket chains.

The report provides an outlook on the volumes of business handled by the UAE food retail industry and the changing societal conditions which are pushing the transition to a segregation of food patterns for the UAE population.

This report also applies the PEST Framework Analysis and Porter's Five Forces Strategy Analysis to the UAE Food Retail Industry.

Major industry players are also analyzed in the report.
