## Abstracts

Having witnessed strong growth in the last couple of years, the South Korean tobacco industry is expected to undergo a period of decline in the coming five years. With cigarette sales being the leading market segment in the industry, the leading South Korean players have to cater to a market governed by strong legislation to curb the health impacts of tobacco.

Aruvians Rsearch analyzes the South Korean tobacco industry in its research offering Analyzing the Tobacco Industry in South Korea. The report is an in-depth profile of the tobacco industry in South Korea as well as the global tobacco industry, along with a complete analysis of the major players in the industry.

For the global tobacco industry we analyze the industry through an industry definition, industry overview wherein we look at the market statistics, an industry value analysis, industry segmentation, regional share of the industry, industry distribution, along with an analysis of the competition in the industry and company market share. Future of the global tobacco industry is also analyzed.

For the South Korean tobacco industry, we analyze the tobacco market through an industry overview, industry value analysis, industry segmentation, regional share analysis, industry distribution, market competition, major players in the market and their market share, as well as an analysis of the future of the tobacco market in South Korea.

With tobacco being one of the most commonly used addictive substances in the world, the industry will continue to grow in the coming years, though the growth is going to be faced with many challenges as countries put in place stringent laws to combat the health effects of consuming tobacco. Aruvians Rsearch's analysis of the South Korean tobacco industry is a comprehensive analysis of the industry.

Major players in the South Korean tobacco industry are analyzed through a company overview, business segment analysis, financial analysis, and a SWOT analysis.
