## Abstracts

European Aeronautic Defense and Space Company (EADS NV) is a Netherlands-based company active within the aerospace and defense sector. The Company manufactures aircrafts, helicopters, commercial space launch vehicles, missiles, satellites, defense systems and defense electronics, and offers services related to these activities. It operates four divisions: Airbus, Eurocopter, Astrium and Cassidian. The Airbus division comprises the Airbus Commercial and Airbus Military segments, which develop, manufacture, market and sell commercial jet aircrafts, military transport aircrafts and special mission aircrafts, among others. The Eurocopter division develops markets and sells civil and military helicopters. The Astrium division develops, manufactures and sells satellites, orbital infrastructures and launchers, as well as provides space-related services. The Cassidian division develops, manufactures and sells missiles systems, military combat and training aircrafts, among others.

SWOT Analysis, is a strategic planning tool used to evaluate the Strengths, Weaknesses, Opportunities, and Threats involved in a project or in a business venture. It involves specifying the objective of the business venture or project and identifying the internal and external factors that are favorable and unfavorable to achieving that objective.

The aim of any SWOT analysis is to identify the key internal and external factors that are important to achieving the objective. SWOT analysis groups key pieces of information into two main categories:

Internal factors – The strengths and weaknesses internal to the organization.

External factors – The opportunities and threats presented by the external environment.

Aruvian Research analyzes EADS in a SWOT analysis and looks at the company's strengths, weaknesses, opportunities and threats in this comprehensive research report.
