Abstracts

In spite of being one of the biggest markets for medical equipment in the Asia Pacific region, the Japanese market for medical equipment has not been growing at a robust rate in recent years. In fact, the sluggish growth of the industry is surprising, considering that many companies manufacturing medical equipments are headquartered in Japan.

The industry is expected to grow at a better rate and come out of this sluggish period of growth in the coming years. By the end of 2020, the Japanese market for medical equipment is expected to have a value of over USD 25 billion.

Aruvian Research analyzes the Japanese medical equipment industry in its research report Market for Medical Equipment in Japan – Analysis and Forecast 2010-2020. The report begins with an industry definition followed by an analysis of the Japanese medical equipment industry. The market for medical equipment in Japan is analyzed through an industry profile, an analysis of industry growth by value, industry segmentation by product categories and geographic regions, and an industry forecast till 2020.
