1. INTRODUCTION

In recent years, the development of butyl Acetate shows high market potential with the recovery of market economy and enterprises in China strengthened the technology innovation in butyl Acetate's quality. By the end of 2013, global production was about 20 million tons; Asian capacity was about 1.3 million tons, which account for 73% of the global capacity. China total capacity was over 50% of the total global capacity, however, the output was only 410 thousand tons. The production region mainly concentrated in South China and East China.

Global butyl acetate consumption was about 1.2 million tons in 2013, and the number increased to 1.35 million tons in 2015. According to the trend of the consumption, demand of butyl acetate will drop, supply surplus; butyl acetate industry development could slow down.

1) The Aim of Report

To provide readers with comprehensive and in-depth understanding of Chinese butyl Acetate industry;
