Abstracts

1. INTRODUCTION

Currently, most of the researches on metamaterial are based in the U.S. and government is the major investor for these projects. The same applies to China, where government is the major source of investment.

In China, private organization, university research institutes and a few companies form the major part of metamaterial research. Kuang-Chi Institute of Advanced Technology is a leader in metamaterial research and it far outnumbers the runner up. Besides, Kuang-Chi is the only institute that managed to turn the technology into commercial use.

Cost effective manufacturing technique is crucial to the commercialization of metamaterial, which can be used in making better devices such as super lens and satellite antenna. It is estimated that metamaterial will enter the niche market soon and become mainstream material in the next 10 years.

In this report, ASKCI will disclose market potential and commercial opportunities for metamaterial in China. Recommendations will be given at the end of the report to describe the prospect and provide suggestions for strategy making.

Contents

I Global Metamaterial Industry Overview

I-1 Current Development

I-2 R&D Analysis

I-3 Application Analysis

II Metamaterial Industry in China

II-1 Regulation and Policy

II-2 Patent Overview by Market Segment

II-3 Current Development

III Market Demand for Metamaterial Industry in China

III-1 Market Demand of Communication Device

III-1.1 Current Development

III-1.2 Market Scale

III-2 Market Demand of Sewage Treatment

IV Market Analysis of Metamaterial Industry by Material Type

IV-1 Left-Handed Materials (LHM)

IV-1.1 Application of LHM in Communication System

IV-1.2 Application of LHM in Stealth Technology

IV-1.3 LHM R&D

IV-2 Photonic Crystals

IV-2.1 General Introduction

IV-2.2 Application of Photonic Crystals in Photocatalysis

IV-2.3 Application of Photonic Crystals in Stealth Technology

IV-2.4 Photonic Crystals R&D

IV-3 Other Metamaterial

IV-3.1 Sapphire

IV-3.2 Graphene

V Key Players of Metamaterial Industry

V-1 Kuang-Chi Innovative Technology Ltd.

V-1.1 Introduction

V-1.2 Patent Overview

V-2 Kuang-Chi Institute of Advanced Technology

V-3 Chinese Academy of Sciences

V-4 China Jiliang University

V-5 Southeast University

V-6 Zhejiang University of Technology

V-7 Shenzhen University

V-8 Tianjin University

V-9 Zhejiang University

VI Prospect of Metamaterial Industry in China

VII Conclusion and Recommendations

ASKCI's Legal Disclaimer
