Abstracts

1. INTRODUCTION

By 2013, there are over 24847 third party inspection companies in China, covering 25 industries nationwide. Third party inspection industry is considered as one of the most promising and fast growing service industry in China. In 2014, the market scale of this industry reached RMB54.22 billion which grew by 18.3%.

There is much room to grow for third party inspection industry as it cannot fully satisfy increasing diversified demand in China. Meanwhile, as the government has strengthened regulation on food security and environment protection, there are much opportunities in this area.

In this report, AskCI will further disclose market potential and commercial opportunities for third party inspection in China. Recommendations will be given at the end of the report to describe the prospect and provide suggestions for strategy making.

Contents
