In 2014, the output of patio rig in China was 165 sets with market value of RMBXXX million. However, the performance of the industry in 2015 is not as well as that last year, due to the decrease in fixed asset investment in mining industry and price drops of products such as iron ore, tungsten ore, etc., which lead to decrease of patio rig order. Nonetheless, given the advantages of the industry and wide application, the market value is expected to grow in the following years.
