Abstracts

INTRODUCTION

The length of pipeline for inspection in 2014 was 254,000 km and the market demand for pipeline inspection was RMB12.1 billion. As the mileage and operation time for pipeline accumulated, it is necessary to have pipelines inspections to guarantee safety and operation of pipeline. It is estimated that by the end of 2016, the total length of oil and gas pipelines will exceed 170,000 km, which indicates great potential for pipeline inspection.

In this report, ASKCI will further disclose market potential and commercial opportunities for pipeline inspection industry in China. Recommendations will be given at the end of the report to describe the prospect and provide suggestions for strategy making.
