1. INTRODUCTION

Now in China, domestic enterprises of auto air-condition compressors are weak, compared to foreign-funded enterprises, which take the major proportion in automobile accessory market. With advancing manufacturing level of domestic enterprises, several enterprises stand out, such as Chongqing JianShe Automobile A/C Co., Ltd. But there are still differences between domestic enterprises and foreign advanced enterprises in designing.

In China, there are mainly three types of auto air-condition compressors. The type of wash plate takes 70% in the total market, with advantages of low cost and high efficiency. The type of rotary vane takes 10%. The scroll type takes 20%, which possesses higher efficiency and lower cost, compared to the above two types, but it requires more limiting conditions.

In 2015, the output of auto air-condition compressors in China reached over 26 million, with the value of RMB15 billion. It is predicted that, in 2016, the output will be over 27 million, with the value of RMB17 billion. And in 2020, the output will break 30 million and in 2021 31.2 million.

In this report, AskCI will further disclose market potential and commercial opportunities for auto air-condition compressor industry in China. Recommendations will be given at the end of the report to describe the prospect and provide suggestions for strategy

making.

1) The Aim of Report

To provide readers with comprehensive and in-depth understanding of Chinese auto air-condition compressor industry;

To analyze current development of the industry;

To analyze sales of the industry;

To discover drivers and barriers of the industry;

To reveal opportunities for auto air-condition compressor industry in China.

2) Benefit from the Report

Obtain latest info of auto air-condition compressor industry, such as sales, supply and demand, key players, etc.;

Find out how Chinese auto air-condition compressor market will change and how your business can be involved in;

Keep informed of your competitors/their activities in the globe and in China;

Learn about key market drivers and barriers;

Share this information within your organization using free global intranet license.

2. SCOPE OF INVESTIGATION

The report will investigate Chinese auto air-condition compressor industry from the following aspects:

General situation

Sales situation

Supply and demand

Key players;

Future trend;

Commercial opportunity.

3. TIME NEEDED

Five work days needed
