EXECUTIVE SUMMARY

Global Baby Durable Products Market was valued at USD 20760.4 Million in the year 2019. Escalating urban population with growing access to internet with government taking various initiatives in order to make internet accessible to everyone coupled with manufacturers expanding their product portfolio and offering wide array of products to consumers in order to maintain long terms relationship with them, has been anticipated to infuse growth in the market for Baby Durable Products during the forecast period of 2020-2025. However, the market will see slump in sales because of Covid-19 pandemic that has disrupted the global production, logistics and supply chain.

Under the product segment, Strollers is anticipated to witness the largest market share owing to wide availability of strollers by various leading manufacturers coupled with growing concern of consumers about safety of their kids with burgeoning demand arising for better quality, durability and safety of products, will be accelerating the Baby Durable Products market growth in the coming years.

Maternity and Childcare stores, followed by Supermarkets, attained substantial market share under Distribution Channel segment, chiefly on the back of wide variety of products offered by maternity and childcare stores with escalating investment in online channel of distribution in order to cater to broader consumers' base and adoption of effective marketing strategies by leading companies.

Among the regions, Asia Pacific, followed by North America and Europe, will experience remarkable market share owing to presence of various local as well as leading manufacturers and consumers spending more on baby care and safety products backed with enhanced presence of leading e-commerce players and burgeoning demand for baby durable products in major economies, will be propelling the Baby Durable Products market growth during the period of 2020-2025.
