EXECUTIVE SUMMARY

A comprehensive research report created through extensive primary research (inputs from industry experts, companies and stakeholders) and secondary research, the report aims to present the analysis of Global Cash Logistics Market. The report analyses the Cash Logistics Market by By Segment (Cash in Transit and Cash Management) and By End User (Financial Institutions, Retail and Others). The Global Cash Logistics Market has been analysed By Region (North America, Europe, Asia Pacific, ROW) and By Country (United States, Canada, Mexico, United Kingdom, Germany, Spain, China, India) for the historical period of 2014-2018 and the forecast period of 2019-2024.

Valued at USD 27.3 billion in the year 2018, the global cash logistics market is being influenced by several key factors such as surging number of ATM installations in developing economies, rise in per capita expenditure and spending levels. Apart from the expansion of the ATM network, other factors backing the growth in the global cash in transit market include surging crime rates, increasing implementation of stringent laws and regulations in addition to rising population.

Furthermore, efforts on part of various government bodies to bring about financial inclusion amongst the general populace has also been instrumental in driving the

growth in the market. Developed economies such as United States, Canada, Germany, United Kingdom have been highly profitable markets in the historic period. However, expansion of banking facilities in rural and remote locations across the developing countries of Asia Pacific region is likely to drive the cash logistics market in the coming years.
