EXECUTIVE SUMMARY

The Global Ethernet Adapter Market, valued at USD 2575.71 Million in the year 2020 has been witnessing unprecedented growth in the last few years on the back of rapid growth in data centre, increasing adoption of 5G and IoT and increasing demand in enterprises. Additionally, increasing Internet penetration, adoption of high-speed Internet will drive the ethernet adapter market market value in the near future.

Among the Type in the Ethernet Adapter Market (Internal and external), Internal type of Ethernet Adapter occupies large segment globally due to the inbuilt availability of internal cards but is expected to grow slowly in the forecast period. However, the increasing demand of external Ethernet adapter especially among high-speed internet users will drive the market.

Among the Bandwidth Type in the Ethernet Adapter Market (Ethernet, Fast Ethernet and Gigabit Ethernet), Android is the large segment globally and is expected to grow steadily in the forecast period. The high number of android mobile users especially among developing countries will drive the market.

Among the Application of the Ethernet Adapter Market (Data Centre, Consumer Applications, Electronics System and Others), Data Centre holds large share in market globally and is expected to keep growing in the forecast period. It is one of the largest

applications of Ethernet Adapter Market due to the high demand of higher bandwidth ethernet in data center as well as the rising demand of Hyper scale data center that will keep driving the market in future.

The APAC region is expected to lead the global market throughout the forecast period. The rising smartphone users and increasing internet penetration in APAC countries and rising demand of new technologies like IoT, 5G, AI, ML, is expected to infuse market growth tremendously.
