Sodium bicarbonate main application spheres are healthcare and food markets which together account for more than half of global product consumption.

The majority of sodium bicarb today is still produced from soda ash (natural and synthetic).

China accounted ~35% of global output in 2013, while USA ranked second position with slightly more than 20% share.

Sodium bicarbonate consumption has showed significant growth in recent years. In 2013 Asia was the largest consumer with slightly more than 37% share of global demand (by the way, China accounts 20% of world consumption). Europe and North America ranked second and third place with almost 27% and 22%, respectively.

In next few years the market is expected to grow at 4% per year and will reach 4.2 million tonnes by 2018, driven mainly by Asia region (China in particular); Europe market will show growth at 2% per year. Asia is expected to maintain its position as largest producer and consumer.

The report performs overview of sodium bicarbonate market in CIS countries and globally. It describes present situation, covers manufacturers, provides with data on production and consumption, export and import operations. Sodium bicarbonate market forecast is also done in the report.
