About Xylenes Market

There are three isomers of xylene: ortho-, meta- and para-xylene. Para-xylene is the main one with the 81% share in isomers total.

Main application sphere of p-xylene is in the production of terephthalic acid; o-xylene is mostly applied in phthalic anhydride production; m-xylene goes in the synthesis of isophthalic acid.

Global xylenes industry has been demonstrated growth in recent years. China (26%), South Korea (17%) and the USA (7%) have been the major consumers in the global xylenes industry.

Global market growth trend is set to continue with the most of demand still coming from the same regions as at present.

Main xylenes projects will be realized in the Asia Pacific countries which by now hold about 70% of world xylenes capacity and the share is to go up.

The report performs overview of xylenes (P-xylene, O-xylene, M-xylene) market globally and in CIS countries. It describes present situation, covers xylenes manufacturers, provides with data on production and consumption, export and import operations. Xylenes market forecast is also done in the report.
