Such information creates your awareness about principal trends of 01 Communique Laboratory Inc. business.

About 01 Communique Laboratory Inc.

01 Communique Laboratory Inc. (01 Communique or the company) was incorporated under the Business Corporations Act (Ontario) in 1992. 01 Communique has been developing, and marketing PC-based messaging and communications software. The company's software, marketed under the COMMUNICATE! brand, are a family of products that integrate a full range of capabilities including PC faxing, voice messaging, Internet-based email and video that can be retrieved from a single point of access. The Company's I'm InTouch service extends the company's technology beyond the desktop, enabling PC users to remotely access their information and manage their communications from any wired or wireless device, connected to the Internet.

Products

COMMUNICATE!

The COMMUNICATE! product family is a suite of desktop unified messaging products aimed at the consumer and SOHO market. The product supports Microsoft Windows 95, 98, 2000, NT workstation 4.0 and XP platforms and was designed to resemble a telephone answering machine on screen, making it intuitive and easy to use. Voice, fax,

data transfer, Internet e-mail and contact management applications are all combined under one common user interface, making it easier to use than integrating and learning a variety of different applications.

I'm InTouch

InTouch is an internet-based solution, comprised of enabling software that is loaded on the PC that will be accessed and patent pending technology within a secure data center connected to the internet backbone, that locates the users host PC connected to the internet and provides the secure delivery of data between the remote login device and the host. The InTouch service can be categorized a software based secure socket layer (SSL) remote access service.

I'm InTouch is marketed to always on, always connected small to medium-sized enterprises (SME) and their mobile employees along with individual home/home office users. I'm InTouch is an extremely fast, flexible and cost-effective way to access information someone needs that is stored on a distant computer.

Competition

The Company competes with Expertcity Inc. and Visto Corporation.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
