Such information creates your awareness about principal trends of 1st Constitution Bancorp business.

## **About 1st Constitution Bancorp**

1st Constitution Bancorp operates as the holding company of 1st Constitution Bank, which provides commercial and retail banking services to individuals, small businesses, and not-for-profit organizations principally in the Fort Lee area of Bergen County and in Middlesex, Mercer, and Somerset Counties, New Jersey.

The company conducts its operations through its main office located in Cranbury, New Jersey, and operates 10 additional branch offices in downtown Cranbury, Hamilton Square, Hightstown, Jamesburg, Montgomery, Perth Amboy, Plainsboro, West Windsor, Fort Lee, and Princeton, New Jersey.

### **Lending Activities**

The company's lending activities include both commercial and consumer/installment loans.

**Commercial Lending:** The company offers various commercial loan services, including term loans, lines of credit, and loans secured by equipment and receivables. A range of short-to-medium term commercial loans, both secured and unsecured, are made available to businesses for working capital (including inventory and receivables),

business expansion (including acquisition and development of real estate and improvements), and the purchase of equipment and machinery. It also makes construction loans to real estate developers for the acquisition, development, and construction of residential subdivisions.

**Residential Consumer Lending:** A portion of the company's lending activities consists of the origination of fixed and adjustable rate residential first mortgage loans secured by owner-occupied property located in its primary market areas. It also offers construction loans, second mortgage home improvement loans, and home equity lines of credit. It finances the construction of individual and owner-occupied houses. First mortgage construction loans are made to contractors secured by real estate that is both a pre-sold and a 'speculation' basis. The company makes residential construction loans to individuals who intend to erect owner occupied housing on a purchased parcel of real estate.

**Non-Residential Consumer Lending:** Non-residential consumer loans made by the company include loans for automobiles, recreation vehicles, and boats, as well as personal loans (secured and unsecured) and deposit account secured loans. It also conducts various indirect lending activities through established retail companies in its market areas.

### Investment Portfolio

As of December 31, 2009, the company's investment portfolio included U.S. treasury securities and obligations of U.S. government sponsored corporations and agencies; residential collateralized mortgage obligations; residential mortgage backed securities; obligations of state and political subdivisions; trust preferred debt securities; and restricted stock.

### Deposits

The company's deposits include demand deposits (interest bearing and non-interest bearing), savings deposits, and time deposits.

### Competition

The company's competitors include Bank of America, PNC Bank, Wachovia Bank (a subsidiary of Wells Fargo), and Sovereign Bank.

## History

1st Constitution Bancorp was founded in 1989.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
