term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Abington Bancorp Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Abington Bancorp Inc. business.

### **About Abington Bancorp Inc.**

Abington Bancorp, Inc. operates as the holding company for Abington Savings Bank, doing business as Abington Bank, which provides various financial products and services in Pennsylvania.

The company's main office is located in Jenkintown, Pennsylvania. Its banking office network consists of 12 other branch offices and 7 limited service branch offices. In addition, it maintains a loan processing office in Jenkintown, Pennsylvania. 13 of its banking offices are located in Montgomery County, Pennsylvania, 4 are in neighboring Bucks County, Pennsylvania, and 1 is in Delaware County, Pennsylvania. It maintains ATMs at all of its banking offices and it also has two off-site ATMs, located at a local grocery store and a local college. The company also provides on-line banking and telephone banking services.

The company primarily engages in attracting deposits from the general public. In addition to offering loans and deposits, it also offers securities and annuities to its customers through an affiliation with a third-party broker-dealer.

### **Lending Activities**

The company's principal lending activity has been the origination of loans collateralized by one- to four-family, also known as single-family, residential real estate loans located in its market area. It also originates home equity lines of credit, commercial business loans, and consumer loans. In addition, it has been making construction loans to homebuilders and others for approximately 30 years, and it originates commercial real estate and multi-family (approximately four units) residential mortgage loans.

**One- to Four-Family Residential Mortgage Lending:** The company originates fixed-rate, fully amortizing mortgage loans with maturities of 15, 20, 30 or 40 years. It also offers adjustable rate mortgage (ARM) loans. Its single-family residential mortgage loans also include home equity loans. Its single-family residential mortgage loans also include loans to local businessmen for a commercial purpose.

**Commercial Real Estate and Multi-Family Residential Real Estate Loans:** The company's commercial real estate and residential multi-family real estate loan portfolio consists primarily of loans secured by office buildings, retail, and industrial use buildings, strip shopping centers, residential properties, and other properties used for commercial and multi-family purposes. In addition to commercial real estate loans, it offers lines of credit for commercial uses.

**Construction Lending:** The company originates construction loans for the construction and development of various types of projects, as well as acquisitions of various types of properties for development. In addition to loans to finance the construction and development of single family homes and subdivisions, its construction loans also include loans to acquire and hold unimproved land, loans to acquire land and develop the basic infrastructure, such as roads and sewers, and construction loans for commercial uses. Its construction and development loans are typically offered with terms of up to 36 months. The majority of its construction loans are secured by properties located in Bucks and Montgomery Counties, Pennsylvania.

**Home Equity Lines:** The company offers home equity lines on a revolving line of credit basis.

**Commercial Business Loans:** The company's commercial business loans typically are to small to mid-sized businesses in its market area and may be for working capital, inventory financing or accounts receivable financing. The commercial business loans generally are secured by equipment, machinery, or other corporate assets.

**Consumer Lending Activities:** The company offers various types of consumer loans,

such as loans secured by deposit accounts, automobile loans, and unsecured personal loans.

### Investment Portfolio

As of December 31, 2009, the company's investment portfolio included mortgage-backed securities; securities of U.S. government and agency obligations; municipal securities, corporate debt obligations, and other securities.

### Deposits

The company offers various deposit accounts with a range of interest rates and terms. Its deposits consist of checking, both interest-bearing and non-interest-bearing, money market, savings, and certificate of deposit accounts.

### History

Abington Bancorp, Inc. was founded in 1867.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
