Acorn Energy, Inc. Due Diligence Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Acorn Energy, Inc. and its competitors. This provides our Clients with a clear understanding of Acorn Energy, Inc. position in the **Software and Technology Services Industry**.

- The report contains detailed information about Acorn Energy, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.
- Another part of the report is a SWOT-analysis carried out for Acorn Energy, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.
- The Acorn Energy, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.
- In the part that describes Acorn Energy, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.
- Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Acorn Energy, Inc. business.

About Acorn Energy, Inc.

Acorn Energy, Inc., through its subsidiaries, operates as an energy infrastructure company. The company focuses on acquiring emerging ventures of the energy sector.

Services

The company, through its majority-owned operating subsidiaries, provides the following services: SCR

catalyst and management services; Naval and RT Solutions; and Energy Infrastructure Software (EIS) Services.

SCR Catalyst and Management Services: The company provides selective catalytic reduction (SCR), catalyst and management services removal for coal-fired power plants. These services include SCR catalyst management, cleaning and regeneration, as well as consulting services. In addition, the company plans to offer technology (MetalliFix) for the removal of heavy metals, such as mercury, from coal-fired power plants under CoaLogix's Metallix LLC subsidiary.

Naval and RT Solutions: The company provides sonar and acoustic related solutions for energy, defense and commercial markets with a focus on underwater site security for strategic energy installations and other real-time and embedded hardware and software development and production through its DSIT Solutions, Ltd. (DSIT) subsidiary.

Energy Infrastructure Software (EIS) Services: The company provides energy infrastructure software services through its subsidiary, Coreworx Inc. (Coreworx). It provides integrated project collaboration and advanced document management solutions for the architecture, engineering and construction markets, particularly for capital projects in the energy industry.

Coalogix

The company, through its SCR-Tech LLC (SCR-Tech) subsidiary, offers various services for coal-fired power plants that use SCR systems to reduce Nitrous Oxide (NOx) emissions. NOx emissions are contributors to ground-level ozone (smog), particulate matter and acid rain. These services include SCR catalyst management, cleaning and regeneration, as well as consulting services. CoaLogix provides products and services to address the emissions control market for coal-fired power plants.

Catalyst Cleaning, Rejuvenation and Regeneration

The company offers proprietary and patented processes based on technologies that can improve the NOx removal efficiency and restore the useful life of installed SCR catalyst. Its processes are capable of physically cleaning and rejuvenating the most severely plugged, blinded or poisoned catalyst, and also chemically reactivating deactivated catalyst. The company offers various alternatives for restoring its NOx removal efficiency and extending its life.

SCR and Catalyst Management

The company provides a range of customized SCR and catalyst management services, including guidance on effective SCR and catalyst management strategies, with the objective of assisting plant operators in optimizing the operation and performance of their SCR systems. All SCR and catalyst management services are offered as either a package or a la carte, allowing the flexibility to select and combine various services on an as-needed basis tailored to the individual SCR system.

Customers and Markets: The company's SCR Catalyst and Management Services business primarily serves the U.S. coal-fired power generation market. Its customer base ranges from investor-owned utilities and independent power producers to smaller municipal power generators. Its customers include The Detroit Edison Company and Allegheny Energy Service Corporation.

Competition: The company identifies competition from Evonik Energy Services LLC (Evonik LLC) and Enerfab Inc.

Naval & RT Solutions – Dsit Solutions Ltd.

The company offers a range of sonar and acoustic-related solutions to strategic energy installations, as well as defense and homeland security markets. It provides solutions to both governmental and commercial

customers.

Products and Services

DSIT's Naval and RT Solutions activities are focused on two areas – sonar and acoustic solutions for naval and security markets and other real-time and embedded hardware and software development and production.

Naval Solutions: The company's naval solutions include a range of sonar and acoustic-related solutions to the strategic ene
