Abstracts

Adal Group Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Adal Group Inc. and its competitors. This provides our Clients with a clear understanding of Adal Group Inc. position in the Industry.

The report contains detailed information about Adal Group Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Adal Group Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Adal Group Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Adal Group Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Adal Group Inc. business.

About Adal Group Inc.

Adal Group, Inc., through its operating subsidiaries, produces aluminum extrusions and manufactured parts. The Company's three principal operating subsidiaries include Adal Seco (Seco or Adal Seco), Adal Engineering, and Adal Guilform (Engineering or Adal Engineering).

Seco provides aluminum extrusion design and production services, providing supply-chain management, including component design, fabrication, warehousing and delivery. These products are sold through the Adal Seco brands, Adal Extra and Adal Climatix. Engineering provides precision engineering, tool making and volume production of machined (primarily aluminum) components principally for the automotive industry. Guilform Holdings, Ltd. was acquired in February, 2005 and is a fabricator of panels for the construction industry.

Products and Services

Manufacturing Division - Adal Seco, Adal Engineering and Adal Extra

Adal Seco - Aluminum Extrusion Design and Production Services

Adal Seco provides aluminum extrusions, such as hollow and solid tubing. Adal Seco can provide its customers with 'supply-chain management', handling all stages of their product's production in-house, including design, fabrication, finishing, assembly, warehousing and delivery. Adal Seco has a customer base of approximately 1,000 customers in the architectural, construction, automotive, medical, defense, transportation, and HVAC industries.

Adal Engineering - Precision Engineering and Volume Production of Machined Aluminum Components

Adal Engineering manufactures motor vehicle tube connector parts for sale to two original equipment manufacturers (OEMs), Calsonic Kansei and Denso Manufacturing U.K., Ltd. Adal Engineering's products can be found in motor vehicle brands, such as Land Rover, Renault, Ford, Audi, Volkswagen, and Toyota. Adal Engineering provides its components directly to the OEMs' production lines. Under its supply agreement with Calsonic Kansei, Adal Engineering provides Calsonic's requirements for the parts Adal Engineering manufactures. Denso buys automotive parts from Adal Engineering by purchase order under a general purchase agreement.

Adal Engineering's building products consist primarily of aluminum window bars, hardware, and handles. The Company's machine products include precision engineered components that are attached to electric motors and hydraulic and pneumatic motors of automobiles.

Adal Engineering also manufactures gun cleaning kits for the United Kingdom's Ministry of Defense, which are used by the country's frontline soldiers for their standard issue SA-80 rifles. Adal Engineering manufactures kits and produces replacement parts for kits.

Adal Extra - Value-Added Finishing Services

Adal Extra focuses on modifying extrusions by drilling, punching, cutting, machining and welding. Adal Extra can also provide the finish coating to extrusion by having polyester powder or anodized finish. Adal Extra provides product manufacturing, assembly, warehousing, and delivery of parts.

Adal Extra's projects include the production of Privacy Screens for shared prison cells. The government engaged Adal Extra to produce dividers for each prison cell. Adal Extra uses aluminum extrusions produced by Adal Seco and adds value by designing,

forming, and painting each extrusion to produce the finished product. Other Adal Extra customers are in the lighting, display and shelving products industries, as well as manufacture and assembly of running boards for 4x4 vehicles. Adal Seco produces the aluminum extrusions maintained in inventory by Adal Extra.

Architectural Division - Adal Guilform, Adal Structures and Adal Climatix

Adal Guilform

In February 2005, the Company purchased Guilform Holdings Limited and its wholly-owned subsidiary, Adal Guilform, a U.K.-based fabricator of aluminum building facades.

Adal Guilform produces specialist metal cladding panels, and provides a range of sheet metal fabrication services. Adal Guilform has an informal agreement with Schucco, a curtain wall supplier (glass facades), to manufacture components for Schucco systems.

Adal Climatix - Architecturally Designed HVAC Systems

Adal Climatix engages

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
