## Abstracts

Adams Resources & Energy Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Adams Resources & Energy Inc. and its competitors. This provides our Clients with a clear understanding of Adams Resources & Energy Inc. position in the [Energy](#) Industry.

The report contains detailed information about Adams Resources & Energy Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Adams Resources & Energy Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Adams Resources & Energy Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Adams Resources & Energy Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Adams Resources & Energy Inc. business.

### **About Adams Resources & Energy Inc.**

Adams Resources & Energy, Inc. engages in marketing crude oil, natural gas, and petroleum products; tank truck transportation of liquid chemicals; and oil and gas exploration and production.

#### Marketing Segment Subsidiaries

Gulfmark Energy, Inc. (Gulfmark), a subsidiary of the company, purchases crude oil and arranges sales and deliveries to refiners and other customers. Activity is concentrated primarily onshore in Texas and Louisiana with additional operations in Michigan and New Mexico. During 2009, Gulfmark purchased approximately 66,100 barrels per day of crude oil at the wellhead or lease level. Gulfmark also operates 101 tractor-trailer rigs and maintains approximately 50 pipeline inventory locations or injection stations. Gulfmark has the ability to barge oil from 5 oil storage facilities along the intercoastal waterway of Texas and Louisiana and maintains 50,000 barrels of storage capacity at certain of the dock facilities to access waterborne markets for its products. Gulfmark arranges transportation for sales to customers or enters into exchange transactions with third parties.

Adams Resources Marketing, Ltd. (ARM), a subsidiary of the company, operates as a

wholesale purchaser, distributor, and marketer of natural gas. ARM's focus is on the purchase of natural gas at the producer level. During 2009, ARM purchased approximately 363,000 million british thermal units (mmbtu's) of natural gas per day at the wellhead and pipeline pooling points. Business is concentrated among approximately 60 independent producers with the primary production areas being the Louisiana and Texas Gulf Coast and the offshore Gulf of Mexico region. ARM provides value added services to its customers by providing access to common carrier pipelines and handling daily volume balancing requirements, as well as risk management services.

Ada Resources, Inc. (Ada), a subsidiary of the company, markets branded and unbranded refined petroleum products, such as motor fuels and lubricants. Motor fuel sales include automotive gasoline, biodiesel and conventional diesel fuel. Lubricants consist of passenger car motor oils, as well as a complement of industrial oils and greases. Ada is also involved in the railroad servicing industry, including fueling and lubricating locomotives, as well as performing routine maintenance on the power units. Further, the United States Coast Guard has certified Ada as a direct-to-vessel approved marine fuel and lube vendor. Ada's marketing area primarily includes the Texas Gulf Coast and southern Louisiana. The primary product distribution and warehousing facility is located on 5.5 company-owned acres in Houston, Texas. The property includes a 60,000 square foot warehouse, 11,000 square feet of office space, and bulk storage for 320,000 gallons of lubricating oil.

#### Transportation Segment Subsidiary

Service Transport Company (STC), a subsidiary of the company, transports liquid chemicals on a 'for hire' basis throughout the continental United States and Canada. Transportation service is provided to approximately 400 customers under multiple load contracts in addition to loads covered under STC's standard price list. STC operates 262 truck tractors of which 6 are independent owner-operator units and maintains 416 tank trailers. In addition, STC maintains truck terminals in Houston, Corpus Christi, and Nederland, Texas, as well as Baton Rouge (St. Gabriel), Louisiana, and Mobile (Saraland), Alabama. Transportation operations are headquartered at a terminal facility situated on 22 company-owned acres in Houston, Texas. This property includes maintenance facilities, an office building, tank wash rack facilities and a water treatment system. The St. Gabriel, Louisiana terminal is situated on 11.5 company-owned acres and includes an office building, maintenance bays, and tank cleaning facilities.

#### Oil and Gas Segment Subsidiary

Adams Resources Exploration Corporation (AREC), a subsidiary of the company, is actively engaged in the exploration and development of domestic oil and natural gas properties primarily in Texas and the south central region of the United States. Exploration offices are maintained in Houston and the company holds an interest in 325 wells of which 43 are company operated.

## History

Adams Resources & Energy, Inc. was founded in 1973.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
