The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Advance Auto Parts Inc. business.

About Advance Auto Parts Inc.

Advance Auto Parts, Inc., through its subsidiaries, operates as a retailer of automotive parts, accessories, and maintenance items to do-it-yourself and do-it-for-me customers in the automotive aftermarket industry.

Segments

The company operates in two segments, including Advance Auto Parts (AAP), and Autopart International (AI).

Advance Auto Parts (AAP) Segment

The AAP segment consists of its store operations with in the United States, Puerto Rico, and the Virgin Islands, which operate under the names Advance Auto Parts, Advance Discount Auto Parts, and Western Auto.

As of January 2, 2010, the company operated 3,264 AAP stores within the United States, Puerto Rico and the Virgin Islands. It operated 3,238 stores throughout 39 states in the Northeastern, Southeastern and Midwestern regions of the United States. These stores operated under the Advance Auto Parts trade name except for certain

stores in the state of Florida, which operated under the Advance Discount Auto Parts trade name. These stores offer a selection of brand name and proprietary automotive replacement parts, accessories, batteries and maintenance items for domestic and imported cars and light trucks. In addition, the company operated 26 stores under the Western Auto and Advance Auto Parts trade names, located in Puerto Rico and the Virgin Islands, or Offshore.

The company also provides its customers online shopping at www.AdvanceAutoParts.com and access to approximately 100,000 parts and accessories. Its online Web site allows its customers to pick up merchandise at a conveniently located store or have their purchases shipped directly to their home or business.

The company's stores carry a standard product offering of approximately 16,000 stock keeping units (SKUs). The primary categories of product the company offers in its stores include parts, such as alternators, batteries, chassis parts, clutches, engines and engine parts, radiators, starters, transmissions and water pumps; accessories, such as floor mats, mirrors, vent shades, MP3 and cell phone accessories, and seat and steering wheel covers; chemicals, such as antifreeze, freon, fuel additives and car washes and waxes; oil and other automotive petroleum products; and other miscellaneous offerings.

The company also provides various services free of charge to its customers including battery & wiper installation; battery charging; check engine light reading where allowed by law; electrical system testing, including batteries, starters, alternators and sensors; how-to video clinics & project brochures; and oil and battery recycling.

Autopart International (AI) Segment

Al's business primarily serves the Commercial market, with an emphasis on import parts, from its store locations located primarily throughout the Northeast and Mid-Atlantic regions. In addition, its North American Sales Division serves warehouse distributors and jobbers throughout North America. The AI stores offer approximately 18,000 SKUs with access to an additional 17,000 SKUs through its supply chain network.

Competition

The company's primary competitors are both national and regional retail chains of

automotive parts stores, including AutoZone, Inc., O'Reilly Automotive, Inc. and The Pep Boys–Manny, Moe & Jack; wholesalers or jobber stores, including those associated with national parts distributors or associations, such as NAPA and Carquest.

History

Advance Auto Parts, Inc. was founded in 1929.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources Financial

Physical

Technological

Organizational

Intangible resources Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
