## Abstracts

Advanced Analogic Technologies, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Advanced Analogic Technologies, Inc. and its competitors. This provides our Clients with a clear understanding of Advanced Analogic Technologies, Inc. position in the [Semiconductor](#) Industry.

The report contains detailed information about Advanced Analogic Technologies, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Advanced Analogic Technologies, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Advanced Analogic Technologies, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Advanced Analogic Technologies, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Advanced Analogic Technologies, Inc. business.

### **About Advanced Analogic Technologies, Inc.**

Advanced Analogic Technologies Incorporated supplies power management semiconductors for consumer, communications, and computing electronic devices, such as wireless handsets, notebook and tablet computers, smartphones, camera phones, digital cameras, personal media players, Bluetooth headphones and accessories, digital TVs, set top boxes, and displays.

#### **Products**

The company offers a range of analog and mixed-signal circuits that play a critical role in system design. Whether stand alone discrete or integrated PMU/PMIC system solutions, its solutions include display and lighting; power half bridges; battery chargers; integrated load switches; fuel gauging; voltage references; current limited load switches; voltage supervisors and monitors; switching regulators; power MOSFETs; inductorless DC/DC converters; USB OTG; linear regulators; PLL; A/D and D/A converters; Op amps and comparators; and audio class D and audio code. The company provides power management solutions for mobile and line powered consumer electronics devices.

For its system solutions, the company has announced its new AAT2400 family of LED driver systems solutions for LED backlit LCD televisions. The AAT2400 series solutions conserve system power and provide brightness control to individual LED segments based on image content.

## Customers

The company sells directly to original equipment manufacturers (OEMs), including Samsung Electronics Co., Ltd. and LG Electronics, Inc. The company sells through distributors to original design manufacturers (ODMs) to contract manufacturers, and to other system designers, including USI Corporation, Longcheer Holdings Ltd., Tianyu Communication Equipment Co., Ltd, Foxconn Electronics, Inc.. and Gemtek Technology Co. Ltd. It also sells directly to contract manufacturers, such as Flextronics International Ltd. Reference design based sales like those associated with Broadcom chipsets for Apple, Dell, and HP are sold through distribution to contract manufacturers and ODMs.

## Sales Offices

The company operates sales offices in Seoul, South Korea; Taipei, Taiwan; Tokyo, Japan; Shanghai, China; Shenzhen, China; Hong Kong, China; Santa Clara, California; and London, England.

## Competition

The company's primary competitors are Maxim Integrated Products, Inc.; Linear Technology Corporation; Intersil Corporation; Texas Instruments Incorporated; Semtech Corporation; and National Semiconductor Corporation.

## History

Advanced Analogic Technologies Incorporated was founded in 1997.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

### RESEARCH METHODOLOGY

### DISCLAIMER

## **1. ADVANCED ANALOGIC TECHNOLOGIES, INC. COMPANY PROFILE**

- 1.1. Key facts
- 1.2. Financial Performance
- 1.3. Key Executives
- 1.4. Ownership and Major Holders
- 1.5. Company History

## **2. ADVANCED ANALOGIC TECHNOLOGIES, INC. BUSINESS OVERVIEW**

- 2.1. Business Description
- 2.2. Major Products and Services
- 2.3. Markets and Sales Activities
- 2.4. Locations, Subsidiaries, Operating Units

## **3. ADVANCED ANALOGIC TECHNOLOGIES, INC. SWOT ANALYSIS**

- 3.1. Overview
- 3.2. Strengths
- 3.3. Weaknesses
- 3.4. Opportunities
- 3.5. Threats

## **4. ADVANCED ANALOGIC TECHNOLOGIES, INC. FINANCIAL ANALYSIS**

- 4.1. Financial Statements
  - 4.1.1. Income Statement
  - 4.1.2. Balance Sheet
  - 4.1.3. Cash Flow
- 4.2. Financial Ratios
  - 4.2.1. Profitability
  - 4.2.2. Margin Analysis

- 4.2.3. Asset Turnover
- 4.2.4. Credit Ratios
- 4.2.5. Long-Term Solvency
- 4.2.6. Growth Over Prior Year
- 4.2.7. Financial Ratios Charts
- 4.3. Stock Market Snapshot

## **5. ADVANCED ANALOGIC TECHNOLOGIES, INC. COMPETITORS AND INDUSTRY ANALYSIS**

- 5.1. Advanced Analogic Technologies, Inc. Direct Competitors
- 5.2. Comparison of Advanced Analogic Technologies, Inc. and Direct Competitors Financial Ratios
- 5.3. Comparison of Advanced Analogic Technologies, Inc. and Direct Competitors Stock Charts
- 5.4. Advanced Analogic Technologies, Inc. Industry Analysis
  - 5.4.1. Semiconductor Industry Snapshot
  - 5.4.2. Advanced Analogic Technologies, Inc. Industry Position Analysis

## **6. ADVANCED ANALOGIC TECHNOLOGIES, INC. NEWS & EVENTS**

- 6.1. News & PR Activity Analysis
- 6.2. IR Corporate News
- 6.3. Marketing News
- 6.4. Corporate Events

## **7. ADVANCED ANALOGIC TECHNOLOGIES, INC. EXPERTS REVIEW<sup>1</sup>**

- 7.1. Experts Consensus
- 7.2. Experts Revisions

## **8. ADVANCED ANALOGIC TECHNOLOGIES, INC. ENHANCED SWOT ANALYSIS<sup>2</sup>**

## **9. UNITED STATES PESTEL ANALYSIS<sup>2</sup>**

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
