Such information creates your awareness about principal trends of Advaxis Inc. business.

About Advaxis Inc.

Advaxis, Inc., a development stage biotechnology company, develops cancer vaccines that utilize multiple mechanisms of immunity.

Products

The company is developing a live *Listeria* vaccine technology under license from the University of Pennsylvania (Penn) which secretes a protein sequence containing a tumor-specific antigen. It focuses its initial development efforts upon therapeutic cancer vaccines targeting cervical cancer, its predecessor condition, CIN, head and neck cancer, breast cancer, prostate cancer, and other cancers.

The company's products in development include ADXS11-001, a Phase I/II trial product for cervical intraepithelial neoplasia, cervical cancer, and head and neck cancer; ADXS31-142, a Phase I trial product for prostate cancer; and ADXS31-164, a Phase I trial product for breast cancer.

Partnerships and Agreements

The company has entered into an agreement with Cobra Biomanufacturing PLC (Cobra) for the purpose of manufacturing its cervical cancer vaccine ADX11-001. Cobra

manufactures gene therapy products for investigational studies. Cobra is a full service manufacturing organization that manufactures and supplies DNA-based therapeutics for the pharmaceutical and biotech industry.

Competition

The company's competitors include Antigenics, Inc.; Avi BioPharma, Inc.; Biomira, Inc.; Cellgenesis Inc.; Biovest International; Biosante Pharmaceuticals, Inc; Dendreon Corporation; Pharmexa-Epimmune, Inc.; Genzyme Corp.; Progenics Pharmaceuticals, Inc.; and Vical Incorporated.

Significant Events

In June 2010, Advaxis Inc. and the Science and Technology Directorate of the U.S. Department of Homeland Security have signed the cooperative research and development agreement (CRADA). A Cooperative Research and Development Agreement (CRADA) is an agreement between the Federal government and private sector participants to work together on a mutually beneficial project.

In October 2010, Advaxis Inc. announced that it has signed a formal research agreement with National Cancer Institute at the National Institutes of Health. The Vaccine Section of National Cancer Institute and Advaxis Inc. have entered into a Collaborative Research and Development Agreement for the development of live attenuated Listeria vaccines for the treatment of cancer.

History

Advaxis, Inc. was founded in 2002.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
