Abstracts

Agnico-Eagle Mines Ltd. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Agnico-Eagle Mines Ltd. and its competitors. This provides our Clients with a clear understanding of Agnico-Eagle Mines Ltd. position in the Industry.

The report contains detailed information about Agnico-Eagle Mines Ltd. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Agnico-Eagle Mines Ltd.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Agnico-Eagle Mines Ltd. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Agnico-Eagle Mines Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Agnico-Eagle Mines Ltd. business.

About Agnico-Eagle Mines Ltd.

Agnico-Eagle Mines Limited, through its subsidiaries, engages in the exploration, development, and production of gold in Canada, Finland, Mexico, the United States, and Argentina.

Segments

The company operates through four segments, including Canada, Europe, Latin America, and the United States.

The Quebec Region includes the LaRonde Mine, the LaRonde Mine extension project, the Goldex Mine and the Lapa Mine, each of which is held directly by the company. Its operations in the European Region are conducted through its indirect subsidiary, Agnico-Eagle AB, which owns the Kittila Mine in Finland. The company's operations in the Latin American Region are conducted through its subsidiary, Agnico Eagle Mexico S.A. de C.V., which owns the Pinos Altos Mine and the Creston Mascota deposit. The Nunavut Region is comprised of the Meadowbank Mine, which is held directly by the company.

The company manages 78 properties in Canada, 11 properties in Nevada and Idaho in the United States, 3 properties in Finland, 4 properties in Mexico, and 3 properties in

Argentina. Exploration activities are managed from offices in Val d'Or, Quebec; Reno, Nevada; Chihuahua, Mexico; Helsinki and Kittila, Finland; and Vancouver, British Columbia.

LaRonde Mine

The LaRonde Mine is situated approximately 60 kilometres west of the City of Val d'Or in northwestern Quebec (approximately 470 kilometres northwest of Montreal, Quebec) in the municipalities of Preissac and Cadillac. As of December 31, 2009, the LaRonde Mine was estimated to contain proven mineral reserves of approximately 358,000 ounces of gold comprised of 4.8 million tonnes of ore grading 2.34 grams per tonne and probable mineral reserves of 4.5 million ounces of gold comprised of 29.6 million tonnes of ore grading 4.72 grams per tonne. The company's LaRonde Mine consists of the LaRonde property and the adjacent El Coco and Terrex properties, each of which is 100% owned and operated by it.

The LaRonde property consists of 35 contiguous mining claims and 1 provincial mining lease and covers in total 1,044.9 hectares. The El Coco property consists of 22 contiguous mining claims and 1 provincial mining lease and covers in total 356.7 hectares. The Terrex property consists of 21 mining claims that cover in total 424.4 hectares. The company also has 2 surface rights leases that cover in total approximately 122.3 hectares that relate to the water pipeline right of way from Lake Preissac and the eastern extension of the LaRonde tailings pond #7 on the El Coco property.

The LaRonde Mine includes underground operations at the LaRonde and El Coco properties that can both be accessed from the Penna Shaft, a mill, a treatment plant, a secondary crusher building and related facilities. The company owns 100% of the Sphinx property immediately to the east of the El Coco property.

An exploration program was initiated in 2009 to investigate the ultimate depth of Zone 20 North. In 2009, a total of 268 holes were drilled on the LaRonde property for a total length of 30,699 metres, compared to 245 holes for a total length of 28,039 metres in 2008.

Goldex Mine

The Goldex Mine is located in the City of Val d'Or, Quebec, approximately 60 kilometres east of the LaRonde Mine. As of December 31, 2009, the Goldex Mine was estimated to

have proven mineral reserves of approximately 338,858 ounces of gold comprised of 5.2 million tonnes of ore grading 2.02 grams gold per tonne and probable mineral reserves of 1.29 million ounces of gold comprised of 19.5 million tonnes of ore grading 2.06 grams gold per tonne.

The Goldex property, in which the company has a 100% working interest, consists of 20 contiguous mining claims and 1 provincial mining lease (98.6 hectares), covering an aggregate of 273.3 hectares. It also has 1 lease covering 418.5 hectares of surface rights that are used for the auxiliary tailings pond.

The Goldex Mine includes underground operations that can be accessed from two shafts, a processing plant, an ore storage facility and other related facilities. Probe Mines Ltd. holds a 5% net smelter return royalty interest on the Probe block.

Kittila Mine

The Kittila Min

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
