term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Agree Realty Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Agree Realty Corp. business.

### **About Agree Realty Corp.**

Agree Realty Corporation, a real estate investment trust (REIT), engages in the acquisition, ownership, development, and management of retail properties net leased to national tenants in the United States.

#### Properties

As of December 31, 2009, the company's portfolio consisted of 73 properties, including 61 freestanding net leased properties and 12 community shopping centers, located in 16 states containing an aggregate of approximately 3.5 million square feet of gross leasable area (GLA).

#### Freestanding Properties

As of December 31, 2009, the company's 61 of freestanding properties were leased to Walgreen Co.; Borders Group, Inc.; Rite Aid; Kmart Corporation; JP Morgan Chase; Fajita Factory; Citizens Bank; Lake Lansing RA Associates, LLC; Meijer; and Wal-Mart (Sam's Club). The company's freestanding properties range in size from 4,426 to 458,729 square feet of GLA and are located in the following states: California (1), Florida (6), Georgia (1), Indiana (2), Kansas (2), Maryland (2), Michigan (36), Nebraska

(2), New Jersey (1), New York (2), Ohio (1), Oklahoma (4), and Pennsylvania (1).

### Community Shopping Centers

The company's 12 community shopping centers range in size from 20,000 to 241,458 square feet of GLA. The community shopping centers are located in 5 states as follows: Florida (1), Illinois (1), Kentucky (1), Michigan (6), and Wisconsin (3). The company's community shopping centers tend to be located in high traffic, market dominant centers in which customers of its tenants purchase day-to-day necessities. Its community shopping centers are anchored by national tenants.

### REIT Tax Status

The company has elected to be treated as a REIT under the Internal Revenue Code. As a REIT, it is not subject to federal income tax to the extent that it distributes approximately 90% of its taxable income to its stockholders.

### History

Agree Realty Corporation was founded in 1971.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
