## **Abstracts**

Air Industries Group, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Air Industries Group, Inc. and its competitors. This provides our Clients with a clear understanding of Air Industries Group, Inc. position in the Industry.

The report contains detailed information about Air Industries Group, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Air Industries Group, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Air Industries Group, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Air Industries Group, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Air Industries Group, Inc. business.

### **About Air Industries Group, Inc.**

Air Industries Group, Inc., an aerospace and defense company, designs and manufactures structural parts and assemblies that focus on flight safety, including landing gear, arresting gear, engine mounts, flight controls, and throttle quadrants.

The company also provides sheet metal fabrication, tube bending and welding services, as well as distributing specialty metals that are a critical component in the aerospace supply chain. The company operates two independent companies which serve the aerospace industry and work cooperatively with each other. These companies are Air Industries Machining (AIM) and Welding Metallurgy.

#### **Air Industries Machining**

AIM manufactures aircraft structural parts and assemblies principally for prime defense contractors in the defense/aerospace industry, including Sikorsky, Lockheed Martin, Boeing, and Northrop Grumman. AIM is a provider of flight critical, technically complex structures. AIM produces approximately 2,400 individual products (SKU's) that are assembled into electromechanical devices, mixer assemblies, rotorhub components for Blackhawk helicopters, arresting gear for the E2C/D Hawkeye, C2A Greyhound and the U.S. Navy Fighters, vibration absorbing assemblies for Sikorsky helicopters, landing

gear components for the F-35 Joint Strike Fighter (JSF), and other subassembly packages.

## Welding Metallurgy

Welding Metallurgy is a provider of specialty welding services and metal products. The company's welding services and products are provided to prime contractors in the defense and commercial aerospace industries, aerospace engine manufacturers, and subcontractors to aerospace manufacturers throughout the United States.

Welding Metallurgy is a supplier on the Northrop Grumman E2C/D Hawkeye Program producing approximately 300 different parts annually. They also produce the Inlet Housing for the Sikorsky BlackHawk and various welded door and panel Assemblies for the Boeing CH47 Chinook Helicopter.

## Markets

The company operates in both defense related and commercial aviation. It is a supplier of flight critical parts to Sikorsky's Black Hawk helicopter. The company also makes products that are used in the Boeing 777, Northrop Grumman E2C and E2D, Airbus 380, Boeing C17 Globemaster, Lockheed F-22, and Joint Strike Fighter.

## Competition

AIM's competitors are subcontractors engaged in the supply of aircraft parts and components to prime military contractors and commercial aviation manufacturers, such as Sterling Machine; Monitor Aerospace, a division of Stellex Aerospace; Hydromil, a division of Triumph Aerospace Group; Heroux Aerospace; and Ellanef Manufacturing, a division of Magellan Corporation.

## History

Air Industries Group, Inc. was founded in 1969.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same

price. Please note that preparation of additional types of analyses requires extra time.

RESEARCH METHODOLOGY

DISCLAIMER

### **1. AIR INDUSTRIES GROUP, INC. COMPANY PROFILE**

- 1.1. Key facts
- 1.2. Financial Performance
- 1.3. Key Executives
- 1.4. Ownership and Major Holders
- 1.5. Company History

### **2. AIR INDUSTRIES GROUP, INC. BUSINESS OVERVIEW**

- 2.1. Business Description
- 2.2. Major Products and Services
- 2.3. Markets and Sales Activities
- 2.4. Locations, Subsidiaries, Operating Units

### **3. AIR INDUSTRIES GROUP, INC. SWOT ANALYSIS**

- 3.1. Overview
- 3.2. Strengths
- 3.3. Weaknesses
- 3.4. Opportunities
- 3.5. Threats

### **4. AIR INDUSTRIES GROUP, INC. FINANCIAL ANALYSIS**

- 4.1. Financial Statements
  - 4.1.1. Income Statement
  - 4.1.2. Balance Sheet
  - 4.1.3. Cash Flow
- 4.2. Financial Ratios
  - 4.2.1. Profitability
  - 4.2.2. Margin Analysis

- 4.2.3. Asset Turnover
- 4.2.4. Credit Ratios
- 4.2.5. Long-Term Solvency
- 4.2.6. Growth Over Prior Year
- 4.2.7. Financial Ratios Charts
- 4.3. Stock Market Snapshot

## **5. AIR INDUSTRIES GROUP, INC. COMPETITORS AND INDUSTRY ANALYSIS**

- 5.1. Air Industries Group, Inc. Direct Competitors
- 5.2. Comparison of Air Industries Group, Inc. and Direct Competitors Financial Ratios
- 5.3. Comparison of Air Industries Group, Inc. and Direct Competitors Stock Charts
- 5.4. Air Industries Group, Inc. Industry Analysis
  - 5.4.1. Industry Snapshot
  - 5.4.2. Air Industries Group, Inc. Industry Position Analysis

## **6. AIR INDUSTRIES GROUP, INC. NEWS & EVENTS**

- 6.1. News & PR Activity Analysis
- 6.2. IR Corporate News
- 6.3. Marketing News
- 6.4. Corporate Events

## **7. AIR INDUSTRIES GROUP, INC. EXPERTS REVIEW<sup>1</sup>**

- 7.1. Experts Consensus
- 7.2. Experts Revisions

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
