Abstracts

Air Transport Services Group, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Air Transport Services Group, Inc. and its competitors. This provides our Clients with a clear understanding of Air Transport Services Group, Inc. position in the [Air Freight Industry](#).

The report contains detailed information about Air Transport Services Group, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Air Transport Services Group, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Air Transport Services Group, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Air Transport Services Group, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Air Transport Services Group, Inc. business.

About Air Transport Services Group, Inc.

Air Transport Services Group, Inc., through its subsidiaries, provides aircraft, airline operations, and other related services primarily to the shipping and transportation industries.

The company wholly owns three independent airlines, ABX Air, Inc. (ABX), Capital Cargo International Airlines, Inc. (CCIA), and Air Transport International, LLC (ATI). These U.S. certificated airlines primarily transport cargo within the United States and include operations in Europe, Asia, Africa, and throughout the Americas. Its leasing subsidiary, Cargo Aircraft Management, Inc. (CAM), leases aircraft to ATSG's airlines and to external customers.

ABX provides air cargo transportation through a fleet of Boeing 767 aircraft. CCIA operates Boeing 727 and 757 aircraft, primarily providing air freight transportation for BAX Global, Inc. (BAX). ATI operates Boeing 767 aircraft and McDonnell Douglas DC-8 aircraft, also for BAX, and provides airlift to the U.S. military through the Air Mobility Command.

The company's other businesses include Airborne Maintenance and Engineering

Services, Inc. (AMES), a maintenance and repair organization; ABX Material Services, Inc., which markets and sells aircraft parts; ABX Cargo Services, Inc., which operates mail sorting centers for the U.S Postal Service; ABX Equipment and Facility Services, provides contract maintenance and equipment rentals; and LGSTX Fuel, Inc. (LGSTX) which provides air charter brokerage services, fuel management and specialized cargo management.

Segments

During 2009, the company operated three reportable segments: DHL, ACMI Services, and CAM. Its other business operations include aircraft maintenance and modification services, aircraft part sales, equipment leasing and maintenance, mail handling for the U.S. Postal Service (USPS), and specialized services for aircraft fuel management and freight logistics.

DHL segment

CAM would lease 13 Boeing 767 aircraft to DHL for seven years and ABX would operate these aircraft for DHL under a crew, maintenance, and insurance agreement (CMI) which has an initial term of five years.

ACMI Services

The company, through its three airlines, provides airlift to freight forwarders, other airlines and other customers, typically under ACMI and charter contracts. A typical ACMI contract requires the ATSG airline to supply, at a specific rate per block hour, the aircraft, crew, maintenance and insurance for specified cargo operations, while the customer is responsible for other aircraft operating expenses, including fuel, landing fees, parking fees and ground, and cargo handling expenses. BAX provides freight transportation and supply chain management services, specializing in the heavy freight market for business-to-business shipping.

CAM

CAM's fleet consists of Boeing 767, Boeing 757, Boeing 727, and DC-8 aircraft. CAM leases aircraft to ATSG airlines and to external customers usually under multi-year contracts with a schedule of fixed monthly payments. As needed, the company can provide maintenance, training, and other services to lease customers during the course of the lease term.

Other Products and Services

U.S. Postal Service: ABX Cargo Services, Inc. (ACS) manages three USPS mail sort centers in Indianapolis, Indiana; Dallas, Texas; and Memphis, Tennessee.

Cargo and Transportation Services: Primarily through its LGSTX subsidiary, the company provides brokerage services for airlift. LGSTX arranges charters for customers using third party airlines, as well as ATSG owned airlines. Additionally, LGSTX provides aircraft fuel brokerage for customers of the ATSG airlines and LGSTX provides warehousing and cargo handling services.

Aircraft Maintenance and Modification Services: The company provides aircraft maintenance and modification services to other airlines through ABX and AMES. AMES operates a repair station, in Wilmington, Ohio, including hangars, a component shop and engineering capabilities. AMES's marketable capabilities include the installation of avionics systems and flat panel displays for Boeing 757 and Boeing 767 cockpits. AMES has the capabilities to perform line maintenance, heavy maintenance and airframe overhauls on DC-9, Boeing 767, 757, 737 and 727 aircraft.

Aircraft Parts Sales and Brokerage: ABX Material Services, Inc. (AMS), which holds a certificate relating to free trade zone rights, is an Aviation Suppliers Association 100 Certified reseller and broker of aircraft parts. AMS carries an inventory of DC-8, DC-9 and Boeing 767 spare parts and also maintains inventory on consignment from original equipment manufacturers, resellers, lessors, and other airlines. AMS customers include the commercial air cargo industry, passenger airlines, aircraft manufacturers, and contract maintenance companies serving the commercial aviation industry, as well as other resellers.

Equipment and Facility Maintenance: ABX Equipment and Facility Services (AEFS) provides contract services for operators of warehouses and facilities throughout the U.S. AEFS has an inventory of ground support equipment, such as power units, airstarts, deicers and pushback vehicles that it rents to airports, airlines or other customers.

Flight Crew Training: ABX and CCIA are certificated to offer flight crew training to customers and rent usage of their flight simulators for outside training programs. ATSG owns six flight simulators, including one Boeing 767, one DC-8, two Boeing 727 and two DC-9 flight simulators.

Significant Events

In November 2010, Air Transport Services Group, Inc. had launched new freighter service within Asia, across the Atlantic, and within North America, for Boeing 767 widebody freighters, including advanced 767-300 aircraft.

Competition

The company's competitors include Amerijet International, Inc.; Astar Air Cargo, Inc.; Atlas Air Worldwide Holdings, Inc.; Evergreen International, Inc.; and World Airways, Inc. It also identifies competition from integrated door-to-door carriers, including DHL, the USPS, FedEx Corporation, BAX, and United Parcel Service, Inc.

History

Air Transport Services Group, Inc. was founded in 1980.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
