## Abstracts

Allscripts Healthcare Solutions, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Allscripts Healthcare Solutions, Inc. and its competitors. This provides our Clients with a clear understanding of Allscripts Healthcare Solutions, Inc. position in the [Software and Technology Services](#) Industry.

The report contains detailed information about Allscripts Healthcare Solutions, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Allscripts Healthcare Solutions, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Allscripts Healthcare Solutions, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Allscripts Healthcare Solutions, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Allscripts Healthcare Solutions, Inc. business.

### **About Allscripts Healthcare Solutions, Inc.**

Allscripts Healthcare Solutions, Inc. provides clinical software, services, information and connectivity solutions that empower physicians and other healthcare providers to deliver patient safety, clinical outcomes, and financial results. The company provides various software applications and services, including electronic health records (EHR), practice management, revenue cycle management, clearinghouse services, electronic prescribing, emergency department information system (EDIS), hospital care management and discharge management solutions, document imaging solutions, referral management, and various other solutions for home care and other post-acute facilities.

#### Segments

The company operates in two segments, Clinical Solutions and Health Solutions.

#### Clinical Solutions Segment

The Clinical Solutions segment includes both its enterprise business for physician

practices and integrated delivery networks, and its professional business for smaller or independent physician practices, providing such practices with clinical and practice management software solutions and related services.

## Health System Solutions Segment

The Health System Solutions segment provides offerings for hospitals that are seeking EDIS and care management solutions, as well as post-acute facilities, such as home health providers, hospices, and skilled nursing facilities. The company's solution for home health providers is an integrated system that combines business, clinical, and scheduling features into a single package, providing home health, hospice, and private duty organizations with a product that enables staff to work both inside and outside the office.

## Products and Services

The company provides the following clinical and health software solutions:

Enterprise EHR is a EHR solution designed to improve physician productivity using tablet PCs, wireless handheld devices, or a desktop workstation for the purpose of automating the common physician activities, including prescribing, dictating, ordering lab tests and viewing results, documenting clinical encounters, and capturing charges. Allscripts Enterprise is the clinical software solution of choice for multi-specialty and specialty practices, as well as academic medical centers and hospital sponsored initiatives. Allscripts Enterprise empowers and connects organization clinically, operationally, and financially.

Enterprise PM is a practice management system that streamlines administrative aspects of physician practices, including patient scheduling, electronic remittances, electronic claims submission, and electronic statement production. This system also provides multiple resource scheduling, instant reporting, and referral tracking. The company's electronic data interchange (EDI) solution facilitates statement management processing, claims management processing, electronic remittances, and appointment reminders.

Professional EHR is targeted at small to mid-sized physician practice groups. This solution automates the common physician activities, such as prescribing, clinical reporting, ordering lab tests and viewing results, and capturing charges. The company also offers a disaster recovery solution that safeguards data and provides remote application access in the event of a failure at the primary system site.

Professional PM is a practice management system that streamlines administrative aspects of physician practices, including patient scheduling, electronic remittances, electronic claims submission, and electronic statement production. This system, which provides the engine for Enterprise Practice Management, also provides multiple resource scheduling, instant reporting and referral tracking. The company's EDI solution facilitates statement management processing, claims management processing, electronic remittances, and appointment reminders.

Allscripts MyWay is an integrated solution utilizing one unified database covering practice management, EMR, and claims management. The MyWay solution is designed for smaller-sized physician practices and allows physicians to choose from a hosted service.

Allscripts Document Management is a medical document management

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
