The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Amaru Inc. business.

About Amaru Inc.

Amaru, Inc., through its subsidiaries, operates in the broadband media entertainment business primarily in Singapore and internationally. The company provides interactive entertainment-on-demand and e-commerce streaming over broadband channels, Internet portals, and 3G devices.

Segments

The company's operations are carried out through three segments: Entertainment Services, Digit Games, and E-Travel services.

Entertainment Services

The company provides online entertainment on-demand on broadband channels, Internet portals, and 3G devices for specific and identified viewer lifestyles, demographics, and interests.

Services: The company delivers the following services using broadband technology: video-on-demand (VOD) services that enable individuals to select videos from a central server, on-demand for viewing on: television screens, PCs, personal digital assistants, 3G hand phones, and E-Commerce or online purchases - linked interactively to the

VOD platforms on broadband. Consumers choose to buy products online as they watch the videos.

The company has built and installed its broadband streaming system with firewalls, load balancing, bandwidth, and consumer monitoring systems, which include video streaming, video storage, and Web servers in Singapore. It also developed its streaming applications to stream into television sets, via a set top box. It offers consumers entertainment through its broadband streaming channels available at www.amaruinc.com, www.wowtv.com, www.m2btv.com, and www.m2bworldtravel.com.

Products: The company offers the following products on the VOD platform:

Entertainment - Consumers access movies, music, glamour and fashion, lifestyle (hobbies, cooking, and personalities), documentaries, sports, health and fitness, and others.

E-Commerce - Consumers would purchase products online, view videos on a pay-per-view basis and make payments online.

Wowtv - Web TV Service

WOWtv, a broadband entertainment Web TV service, has embarked on launching its site across the Asia Pacific, streaming multiple channels of Hollywood and Asian entertainment via video on-demand and providing E-commerce services. Its video on-demand content covers genres, such as movies, television dramas, variety shows, documentaries, fashion, lifestyle, sports, and edutainment.

M2BTV - Global Broadband TV (IPTV) Service

The company offers TV channels, delivered live over the Internet, to television sets that have a high-speed Internet connection and IP set top boxes. The service is offered to potential clients and third parties who desire to launch IPTV services to commercial outlets like hotels and condominiums or even to homes.

Broadband Services

The company has an automated content management system (CMS) to enhance its advertising service offered to clients and to provide a new revenue source for the company. The system allows for the programming of video, animation, streaming, and

flash content to multiple destinations.

Linked by broadband networks and wireless set-top boxes to push content and scheduled advertising at physical premises, the CMS allows businesses the option of presenting targeted content on selected video displays in multiple locations, such as on different levels of a shopping mall, in various spots within a restaurant or club or on separate elevators in the same building.

Digit Games

The company has an agreement with Allsports Limited to operate, administer, and manage the lottery digit games activities in Cambodia.

E-Travel Services

The company's subsidiary, M2B World Travel Limited signed an agreement with Amadeus Global Travel Distribution, SA. Through the agreement, M2B offers direct access to the travel options available through the Amadeus network to their viewers worldwide. The agreement extends M2B's reach through its broadband streaming entertainment into the travel arena.

Major Events in 2008 for entertainment services

In 2008, M2B World Holdings Limited, a subsidiary of M2B World Asia Pacific Pte Ltd, entered into an agreement with PT Agis TBK, a company in Indonesia, to set up a joint venture company to launch the WOWtv service and content in Indonesia. The agreement gives M2B World Holdings Limited a 49 percent equity stake in the joint venture company, which is called PT WOW Television.

The agreement in 2008 with PT Agis TBK followed a previous agreement in 2007, where M2B World Holdings Limited entered into an agreement with PT Agis TBK to transfer and licence an IPTV platform. The IPTV platform concerned included the hardware, software and middleware, and the supply of content.

In 2007, M2B World Asia Pacific Pte. Ltd signed an agreement with a Malaysia company to launch IPTV service in Malaysia using the company's set-top boxes. In 2008, the IPTV service was launched on a trial basis in a hotel in Malaysia.

In 2007, the company together with its subsidiary, Tremax International Limited entered

into an agreement with Domaine Group Limited for the acquisition of 80% of Cosmactive Broadband Networks Co Ltd, which is a broadband service provider incorporated in Taiwan.

Subsidiaries

The company's subsidiaries include M2B World, Inc.; M2B World Asia Pacific Pte. Ltd.; M2B Australia Pty. Ltd.; M2B Entertainment, Inc.; M2B Commerce Limited; M2B World Travel Singapore Pte Ltd.; Amaru Holdings Limited; M2B World Holdings Limited; M2B World Pte. Ltd.; Tremax International Limited; and M2B World Travel Limited.

Competition

The company's competitors include Travelocity, Zuji, Expedia, and Priceline.com.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
