The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Amedisys Inc. business.

### **About Amedisys Inc.**

Amedisys, Inc. provides health services to the chronic, co-morbid, and aging population in the United States.

The company delivers care to its patients through its home health and hospice segments. Its home health agencies deliver a range of services in the homes of individuals who may be recovering from surgery, have a chronic disease or disability or terminal illness and need assistance with the essential activities of daily living. The company's hospice agencies provide palliative care and comfort to terminally ill patients and their families. As of December 31, 2009, the company owned and operated 521 Medicare-certified home health agencies and 65 Medicare-certified hospice agencies in 40 states within the United States, the District of Columbia, and Puerto Rico.

### **Operations**

#### **Home Health**

The company provides home-based care management programs for complex, chronically ill patients. Its home health care team utilizes the following resources to meet each patient's continuum of needs: skilled nursing, which includes skilled

observation and assessment, disease specific patient/caregiver education, wound management, infusion management, infusion therapy, catheter management (including, tracheotomy and ostomy care), and nutritional assessment/education; therapy services, which includes physical therapy, occupational therapy, and speech therapy assessment/education; assistance, which includes an assessment of and education regarding health challenges faced by each patient, in each case provided by certified nursing assistants; and additional services, including care provided by medical social workers and registered dietitians.

The company provides care that offers diagnosis-driven, evidenced-based protocols for patient management, including Heart @ Home; Stroke Recovery @ Home; Diabetes @ Home; Chronic Kidney Disease @ Home; Partners in Wound Care; Pain Management @ Home; Wound Care — a Therapy Approach; Rehab @ Home; Surgical Recovery @ Home; Orthopedic Recovery @ Home; Behavioral Health @ Home; Dysphagia @ Home; COPD @ Home; and Balanced for Life.

## Hospice

The company provides care that is designed to provide comfort and support for patients who are facing a terminal illness, such as cancer, heart disease, pulmonary disease, dementia, and Alzheimer's. The services that it offers include providing all medicines, medical equipment and supplies related to the hospice diagnosis; medication management to control pain and symptoms; physician services to manage medications; nursing and home health aide visits to provide direct care; social work, counseling and chaplain services to provide support; volunteer services to provide companionship; and bereavement services for approximately 13 months following a loss.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
