## Abstracts

American Bonanza Gold Corp Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between American Bonanza Gold Corp and its competitors. This provides our Clients with a clear understanding of American Bonanza Gold Corp position in the Industry.

The report contains detailed information about American Bonanza Gold Corp that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for American Bonanza Gold Corp. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The American Bonanza Gold Corp financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes American Bonanza Gold Corp competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of American Bonanza Gold Corp business.

## **About American Bonanza Gold Corp**

American Bonanza Gold Corp. engages in the identification, acquisition, exploration, and development of precious metal properties, primarily gold in the United States and Canada.

### **Copperstone**

The company holds a 100 percent leasehold interest in the Copperstone Project.

### **Copperstone D-Zone Joint Venture**

The company's interest in the D-Zone is held through the Copperstone D-Zone joint venture. The Copperstone Project is located in La Paz County, Arizona, United States. The Copperstone Project totals approximately 8,821 acres and is located in La Paz County, Arizona, approximately 16 kilometers north of the town of Quartzite. The property consists of 335 contiguous unpatented lode mining claims covering an area of approximately 6,901 acres (20.6 acres per claim) and consists of 274 Copperstone, 51 CSA, and 10 Iron Reef claims. The property also includes mineral leases on Arizona State mineral lands in T 7 N, R 19 W, section 31 and T 7N, R 19 W, sections 6 and 7 totaling approximately 1,920 acres.

## Northway Project

The Northway Project is located in Quebec. The property covers the eastern extension of Agnico Eagle's Veza gold deposit and it is on the Casa Berardi Break or deformation zone, which also hosts the Agnico Eagle, Vior, Golden Hope and Golden Knight gold mines. The property consists of two contiguous claim blocks: the 113-claim, 1,600-hectare block and the contiguous 114 claim, 2,000 hectare Noyon block.

The company and Agnico-Eagle Mines Limited (Agnico-Eagle) agreed to jointly explore and develop the Northway Project and Agnico-Eagle's adjoining Veza Property.

## Fenelon Project

The Fenelon Gold Project (the Fenelon Project) located in the Province of Quebec, approximately 30 kilometers east of the company's La Martiniere property. The property consists of 454 mining claims totaling 17,830 acres.

## La Martiniere

The La Martiniere Property is located 600 kilometers northwest of Montreal and consists of 226 unpatented crown mining claims covering approximately 3,000 hectares, which are subject to a 2% Net Smelter Return royalty.

## Northshore Project

The Northshore Project is located on the north shore of Lake Superior in the Province of Ontario, Canada. Bonanza controls a total of 872 acres (353 hectares) via patented, staked and leased lands.

## History

American Bonanza Gold Corp. was incorporated in 1980.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
