Annuities

The company's principal retirement products are Flexible Premium Deferred Annuities (FPDAs) and Single Premium Deferred Annuities (SPDAs). Annuities are long-term retirement saving instruments that benefit from income accruing on a tax-deferred basis. FPDAs are characterized by premium payments that are flexible in both amount and timing as determined by the policyholder and are generally made through payroll deductions. SPDAs are generally issued in exchange for a one-time lump-sum premium payment.

In addition to traditional fixed rate and indexed annuities, the company offers variable annuities. With a variable annuity, the earnings credited to the policy vary based on the investment results of the underlying investment options chosen by the policyholder, generally without any guarantee of principal except in the case of death of the insured.

Supplemental Insurance Products

Loyal and UTA offer supplemental insurance products through independent agents. Principal products include coverage for Medicare supplement, cancer, long-term care, accidental injury, short-term disability, and hospital indemnity.
