The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of American International Group, Inc. business.

About American International Group, Inc.

American International Group, Inc., through its subsidiaries, engages in a range of insurance and insurance-related activities in the United States and abroad.

Segments

The company's segments include General Insurance; Domestic Life Insurance & Retirement Services; Foreign Life Insurance & Retirement Services; and Financial Services.

General Insurance Operations

The General Insurance segment provides property and casualty insurance, as well as various personal lines. The company's General Insurance subsidiaries are multiple line companies writing all lines of property and casualty insurance both domestically and abroad and consists of the Commercial Insurance and the Foreign General Insurance operating segments. In 2009, the company's General Insurance subsidiaries were rebranded as Chartis (Commercial Insurance operates as Chartis U.S. and Foreign General Insurance operates as Chartis International). Chartis Private Client Group (Private Client Group) is part of Chartis U.S.

Commercial Insurance: Commercial Insurance's business in the United States and Canada is conducted through American Home, National Union, Lexington and certain other General Insurance company subsidiaries of the company.

Chartis U.S. writes substantially all classes of business insurance, accepting such business mainly from insurance brokers. In addition to writing substantially all classes of business insurance, including large commercial or industrial property insurance, excess liability, inland marine, environmental, workers' compensation and excess and umbrella coverages, Chartis U.S. offers specialized forms of insurance, such as aviation, accident and health, equipment breakdown, directors and officers liability (D&O), difference-in-conditions, kidnap-ransom, export credit and political risk, and various types of professional errors and omissions coverages. Also included in Chartis U.S. are the operations of Commercial Casualty, which provides insurance and risk management programs for corporate customers and a provider of customized structured insurance products, and Chartis Environmental, which focuses on providing specialty products to clients with environmental exposures. The Chartis Worldsource Division introduces and coordinates the company's products and services to U.S.-based multinational clients and foreign corporations doing business in the U.S. Private Client Group provides a range of coverages for high net worth individuals.

Foreign General Insurance: Chartis International writes both commercial and consumer lines of insurance through a network of agencies, branches and foreign-based insurance subsidiaries. Chartis International uses various marketing methods and multiple distribution channels to write both commercial and consumer lines of insurance with certain refinements for local laws, customs and needs. Chartis International operates in Asia, the Pacific Rim, Europe, the U.K., Africa, the Middle East, and Latin America.

Domestic Life Insurance & Retirement Services Operations

The Domestic Life Insurance and Retirement Services segment offers life insurance products. This segment, rebranded as SunAmerica Financial Group in 2009, consist of various life insurance and retirement services businesses that market their products and services under the brands of American General Life Insurance Company (American General), American General Life and Accident Insurance Company (AGLA), The Variable Annuity Life Insurance Company (VALIC), Western National Life Insurance Company (Western National), SunAmerica Retirement Markets, SunAmerica Mutual Funds, SunAmerica Affordable Housing Partners, FSC Securities, Royal Alliance and

SagePoint Financial. The businesses offer a suite of life insurance, retirement savings products and guaranteed income solutions through an established multi-channel distribution network that includes banks, national, regional and independent broker-dealers, career financial advisors, wholesale life brokers, insurance agents, and a direct-to-consumer platform.

The company's Domestic Life Insurance businesses offer a range of protection products, including individual term and universal life

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
