term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Amexdrug Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Amexdrug Corp. business.

### **About Amexdrug Corp.**

Amexdrug Corporation, through its subsidiaries, operates as a pharmaceutical and cosmeceutical company specializing in the research and development, manufacturing, and distribution of pharmaceutical drugs, cosmetics, and distribution of prescription and over-the-counter drugs, private manufacturing and labeling, and a quality control laboratory.

The company distributes its products primarily to independent pharmacies and secondarily to small and medium-sized pharmacy chains, alternative care facilities and other wholesalers and retailers in the state of California.

#### **Subsidiaries**

The company's subsidiaries include Dermagen, Inc., Allied Med, Inc., Royal Health Care, Inc., and BioRx Pharmaceuticals, Inc.

Dermagen, Inc. engages in manufacturing and distribution of certain pharmaceuticals, medical devices, health, and beauty products.

Allied Med, Inc. operates in the pharmaceutical wholesale business of selling various

brand name and generic pharmaceutical products, over-the-counter (OTC) drug and non-drug products, and health and beauty products to independent and chain pharmacies, alternative care facilities, and other wholesalers.

Royal Health Care Company: operates as a health and beauty company which has sold specially manufactured facial and body creams, arthritic pain relief medications, and an exclusive patented hair care product to pharmacies, beauty salons, beauty supply stores, and other fine shops.

BioRx Pharmaceuticals, Inc. offers over the counter (OTC) products that are recommended by physicians, primarily podiatrists and dermatologists. Its commitment is to offer natural and OTC products that are recommended with confidence by doctors and pharmacists and that the customer can use with pleasure.

## Segments

The company operates in two segments: Distribution and Health and Beauty Products.

Distribution segment engages in the wholesale pharmaceutical distribution and resale of brand and generic pharmaceutical products, over-the-counter drugs and non-drug products, and health and beauty products.

Health and Beauty Products segment engages in the manufacture and distribution of primarily health and beauty products.

## Sales and Marketing

The company's products are sold both through traditional wholesale distribution lines and e-commerce venues, including its Web site, [www.amwrx.com](http://www.amwrx.com).

## History

Amexdrug Corporation was founded in 1963. The company was formerly known as Harlyn Products, Inc., and changed its name to Amexdrug Corporation in 2000.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
