company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Amica Mature Lifestyles Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Amica Mature Lifestyles Inc. business.

### **About Amica Mature Lifestyles Inc.**

Amica Mature Lifestyles, Inc. (Amica or the Company) provides accommodation and services to seniors. Amica engages in the design, marketing, and management of luxury housing and services for mature lifestyles. As of May 31, 2003, the company manages 17 seniors residences, including two under development, in four provinces across Canada. These 17 Amica Wellness & Vitality Residences comprise a total of 2,372 suites, including 250 suites under development, 287 condominium units under development and 106 condominium units sold to individual purchasers.

The Company's operations are comprised of two distinct operating segments: management operations and ownership operations.

Under its management operations segment, the Company generally supervises all aspects of operations of the seniors residences on behalf of third party owners and those properties owned by the Company, including marketing, accounting, purchasing, budgeting, design and implementation of resident programs and the hiring, training and supervising of staff. As well, the Company earns design and marketing fees and sales bonuses on the development and sale of condominium units.

Under its ownership operations segment, the Company owns 100% of 11 seniors

residences; owns a 50% interest in three seniors residences; and has an interest ranging from 13% to 34% in three seniors residence, two of which are currently under construction.

Amica only develops condominium units for sale where the condominium units are connected or adjacent to a rental seniors residence. The project would then earn service fees from these condominium units by providing access to the amenities located in the rental residence.

### Amica's Residences

There are three distinct lifestyle orientations in the seniors' population: independent, semi-independent and dependent. The Company's primary focus is on the independent sector through the luxury accommodation and services offered at Amica Wellness & Vitality Residences.

The Company initially had acquired residences that fell into three distinct divisions: Seniors Independent Living Apartments (SILAs), Retirement Communities (RCs) and Skilled Nursing Residences (SNRs). There is currently one remaining SILA residence and two SNRs.

### Wellness & Vitality™

The Principles are embodied in everything the Company does for its valued residents through the Wellness & Vitality Program. "Wellness" relates to the services the Company provides to nurture the physical body and spans every aspect from diet, to strength training and physical exercise and even encompasses the elements of life safety and security systems in the buildings. Similarly, "Vitality" is the term the Company uses to capture the essence of a resident's "joie de vivre" or happiness. "Vitality" therefore is achieved through participation in recreation and social activities that are particular to each resident's choice.

### Market

The Company's focus is on providing luxury accommodation and services to primarily independent seniors in Canada.

### History

Amica Mature Lifestyles, Inc. was founded in 1996.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
