Abstracts

AMN Healthcare Services Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between AMN Healthcare Services Inc. and its competitors. This provides our Clients with a clear understanding of AMN Healthcare Services Inc. position in the [Healthcare](#) Industry.

The report contains detailed information about AMN Healthcare Services Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for AMN Healthcare Services Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The AMN Healthcare Services Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes AMN Healthcare Services Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of AMN Healthcare Services Inc. business.

About AMN Healthcare Services Inc.

AMN Healthcare Services, Inc. is a provider of comprehensive healthcare staffing and management services. The company recruits and places healthcare professionals on assignments of variable lengths and in permanent positions with clients throughout the United States, who range from acute-care hospitals and physician practice groups to other healthcare settings, including rehabilitation centers, dialysis clinics, pharmacies, home health service providers, and ambulatory surgery centers.

The company also offers a managed services program in which it provides solutions for clients to manage their multiple clinical vendors, and recruitment process outsourcing services, where it conducts clients' recruitment for permanent clinical positions.

The company's staffing services are marketed primarily to two distinct customer groups: healthcare professionals; and hospitals, physician practice groups and other healthcare settings.

The company markets staffing opportunities to healthcare professionals under recruitment brands that include American Mobile Healthcare, Medical Express , NurseChoice, NursesRx, Med Travelers, Platinum Select Staffing, Rx Pro Health, O'Grady Peyton International, Staff Care, and Merritt Hawkins & Associates.

Segments

Nurse and Allied Healthcare Staffing segment

Nurses: The company provides medical nurses, surgical nurses, specialty nurses, licensed practical or vocational nurses and advanced practice nurses in a range of specialties for travel assignments throughout the United States. It places qualified nurse professionals with hospitals and hospital systems. The majority of its assignments are in acute-care hospitals, including teaching institutions, trauma centers and community hospitals. The company places the majority of nurses on 13-week assignments with hospitals and healthcare facilities. It recruits English-speaking internationally trained nurses from foreign countries through O'Grady Peyton International brand for 12-24 month assignments. In addition, the company offers a shorter-term staffing solution under NurseChoice brand to address hospitals' urgent need for registered nurses. NurseChoice is targeted to recruit and staff nurses who can begin assignments within one to two weeks in acute-care facilities.

Allied Health Professionals: The company also provides allied health professionals under Med Travelers, Platinum Select Staffing and Rx Pro Health brands to acute-care hospitals and other healthcare facilities such as skilled nursing facilities, rehabilitation clinics, and retail and mail-order pharmacies. Allied health professionals include such disciplines as physical therapists, surgical technologists, respiratory therapists, occupational therapists, medical and radiology technologists, dialysis technicians, speech pathologists, rehabilitation assistants, pharmacists and pharmacy technicians.

Locum Tenens Staffing segment

The company, under Staff Care brand, places physicians of all specialties, certified registered nurse anesthetists (CRNA), nurse practitioners, and dentists on a temporary basis (locum tenens) as independent contractors with all types of healthcare organizations throughout the United States, including hospitals, medical groups, occupational medical clinics, individual practitioners, networks, psychiatric facilities, government institutions, and managed care entities. These professionals are recruited nationwide and placed on multi-week contracts with assignment length ranging from a few days up to one year.

Physician Permanent Placement Services segment

The company provides permanent physician placement services under Merritt Hawkins brand to hospitals, healthcare facilities, and physician practice groups throughout the United States. Its specialty offerings include approximately 70 specialist and sub-specialist opportunities, such as internal medicine, family practice, and surgery.

Customers

The company offers healthcare professionals placement opportunities and provides staffing solutions to hospital and healthcare facility clients throughout the United States. In addition to acute-care hospitals, the company provides services to sub-acute healthcare facilities, physician groups, rehabilitation centers, dialysis clinics, pharmacies, home health service providers, and ambulatory surgery centers. Its clients include hospitals and healthcare systems, such as Georgetown University Hospital, HCA, NYU Medical Center, Stanford Hospital and Clinics, UCLA Medical Center, The University of Chicago Hospitals, and Mayo Health System.

Competition

The company's competitors in the management services, travel nurse, allied and locum tenens staffing sectors include Cross Country Healthcare, CHG Healthcare Services, Medfinders, On Assignment, and LocumTenens.com.

History

AMN Healthcare Services, Inc. was founded in 1985.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
